LAST EDITION. Cool: a few light showers or snow flurries. TEN PAGES

VOL. V. EDMONTON, MONDAY, MAY 4, 1914. No. 106

## WILL ESTABLISH "TENT CITY" IN EDMONTON SOON

### SQUATTERS MUST MOVE; LOCATION IS CHOSEN EAST END

Contract Awarded Sewer Construction Beau Park and Strathcona Place.

### CIVIC EMPLOYEES MUST NOW PUNCH TIME-CLOCK

Commissioner Booth Accomplishing Much in Clean-up Work.

At a commissioners' meeting this morning the tender of Hulbert and Wilson was accepted for sewer construction work on the south side, the contract price being $27,031.05, and calls for the construction of laterals in Beau Park and Strathcona Place. The city will do the work on the trunk sewer.

The commissioners approved the authorization of the city council as to the removal of the hoist on First street. The hoist was recommended as unsafe two years ago and since that time has not been in use and will be removed at once.

One of the more important actions of the commission board was a move towards the establishment of a model "tent city" for present squatters around the city. Commissioner Booth stated that an order for the removal of squatters had been given by the health department that the people at present living in tents and shacks on the Hudson Bay reserve, and prominent streets in the city must if possible get on the water and sewer.

The mayor surrested a "tent city" such as was used in Medicine Hat during the boom days. An area laid out with streets, lanes, public lavatories, water supply and policeman to patrol the district. Commissioner Booth made a motion that squatters be allocated their city property where was the water and sewer and that a nominal rental be charged in every instance where at all possible, but a later motion by Commissioner Herrizon to take steps to lease portions of river lots 25, 27 and 29, formerly used as a rifle range, was adopted. If this be possible, the city will then commence the establishment of a model "tent city," laid out to the convenience of the residents thereon, for which they will be charged according to amount of space, location etc. This move is in the interests of the health and appearance of the city. A suggestion was made to secure a portion of the penitentiary grounds for the purpose, but the mayor stated that he had been advised that the property will be offered for sale this year as public lots and the whole of it disposed of.

Mayor McNamara stated that he would write to the C.P.R. property officials and endeavor to get them to pave the area in front of the Ninth street station, as otherwise this spot during the rainy season will be in a very muddy state.

A letter was read to the effect that there was in the basement of the civic block, one time clock, which cost in the neighborhood of $200, but was not in use, and recommending that it be sold. It was decided, however, that this same time-clock might be used to advantage at the Civic Block, and such will be the case. "I think it would be a pretty good idea to make some of them get around," said the mayor. "I'm willing to punch it. We want to know everybody who's working. This is a business the same as any other corporation, and should be run along business lines. Commissioner Booth will see that the clock is put in use.

Commissioner Booth, who is lending every effort toward the clean-up week, stated that the residences were being cleaned up and that the business houses for the most part were also getting busy, but stated that there were some of the business houses who were a little backward at the work and that action may be taken against these backward ones to hurry them along in their share of the work. Eight teams are in use about the city picking up papers and rubbish, and men are at work on Jasper avenue, First street, Whyte avenue and Namayo avenue raking up all loose papers, etc. A special meeting of the board of health will be held tomorrow, and if certain bylaws pass, all old signs around the city will be torn down, and it will also make it an offense for hotels and restaurants to sell garbage to farmers.

COMMANDER U.S. ARMY AT VERA CRUZ.

General Fred Funston

## GENERAL FUNSTON OWES PROMINENCE TO EDMONTON MAN

W. B. Trembley, Local Insurance Superintendent, Made History in Philippine War

### SWAM RIVER BETWEEN TWO OPPOSING ARMIES

Colonel Advanced to Brigadier-General—Trembley Given Medal and Elected Judge

There lives at present in Edmonton a former citizen of Kansas City, Kansas, who practically made Brigadier-General Frederick Funston, probably the most talked-of officer in the present Mexican war, what he is today. He is William B. Trembley, superintendent of the Manufacturer's Life Insurance company, 207 C.P.R. Building, and although he is modest about the matter, the following story will convince the reader of the truth of the above statement.

Mr. Trembley (most of those who know him locally call him Judge, as he held the positon in Kansas City for two years which corresponds to our police magistrate) was born and raised in Kansas City, Kansas. He enrolled in Company B, 20th Kansas Infantry, on April 27, 1898, when the Philippine

(Continued on Page Three)

## RUMORED BYLAWS INVALID ACCOUNT SYSTEM CHANGED

That there is a hitch in the local improvement bylaws such as will tie up a large part of the municipal public works for at least four weeks is the rumor which emanates from the city hall this morning, although Mayor McNamara declares that he knows nothing of the hitch.

The story which is going the rounds is that in the circulating of the petitions and in the advertising for the improvements the petitions and advertisements were framed in conformity with last year's system of charging, which levied 100 per cent. against the whole property. Since the circulating of most of the petitions the city council by-laws has changed the system so as to charge 80 per cent. against frontage and 20 per cent. against the city at large. It is reported that the city solicitor has brought the matter to the attention of the mayor with a demand that the petitions and advertisements are invalid, and that as a consequence new petitions are to be circulated at once.

Such petitions, it is declared, would validate whatever sections of work it was possible to get the necessary number of signatures for, and in such cases there would not be any protracted tie up. But in the case of work for which the necessary petitions could not be secured and for which it was found necessary to proceed by advertisement, two weeks would be required for the advertisements and another two weeks for lapse of it is also a part of the rumor that the discrepency in the by-laws was brought to the attention of the commission board and the city solicitor some seven weeks ago when action toward the program for this year was first taken, but that neither the commission board nor the city solicitor thought the matter worthy of action at that time."

### MESSAGE OF DESPAIR PUT IN A BOTTLE ON FOUNDERING STEAMER

Duluth, Minn., May 4.—"S.O.S. God help us." This is the bottled wail of resigned despair believed to have been pencilled by one of the crew of the ill-fated Benjamin Noble as the doomed vessel was pitching to ruin, that the calmed lake waters have yielded. Allowing only for the possibility that someone has given expressing to a perverted sense of humor there is little doubt that a note scrawled on a piece of brown paper and bottle in a whiskey flask was picked up on Park Point by a boy was written by one of the 19 men whose lives were lost early last week. The note reads: "On board the ill-fated steamer. Doomed tonight. God S. O. S. Good by everybody."

## SOLDIERS NAIL HIM TO CROSS; IS LEFT TO DIE

Among Tales of Atrocities Related by Refugees, This is Told of Zapata.

### FEDERALS AND REBELS AT MANZANILLO ARE BITTER

They Exchange Acrimonious Messages, Declares Rear Admiral Howard.

San Francisco, May 4.—Among the tales of atrocities told today by the refugees from the west coast of Mexico who arrived yesterday on the steamer City of Sydney, is that of the crucifixion of the Catholic Bishop of Chalapa.

According to the account, a detachment of the Rebel General Zapantas' soldiers called on the bishop to surrender the funds of his church. He refused, whereupon the soldires are said to have nailed him to a cross and left him to die.

**Won't Be Caught Napping.**

Washington, D. C., May 4.—Constitutionalists and Huerta leaders at Manzanillo, Mexico, have been exchanging very bitter messages according of the report to the navy department today from Rear-admiral Howard, who has read several of the letters.

While the mediation conferences were in progress Secretary of War Garrison discussed the situation at Vera Cruz with department heads. The secretary said that no late reports had been received from General Funston and no more troops had been ordered to reinforce the Americans now at the base of this government's Mexican operations. It was reported, however, that plans were in readiness for immediate action should there arise any hostile move on the part of the Huerta forces in the vicinity of Vera Cruz.

Although officials here are going on the assumption that Huerta's soldiers will respect the armistice pending mediation developments assurances are given that this government will not be caught napping should there be any break, authorized or unauthorized, on the part of Huerta's troops.

**Huerta's Strength Waning.**

Reflecting some credence to statements made by Mexico City refugees at Vera Cruz and the border, that General Huerta was in desperate straights and that some of his own supporters were considering making a demand that he resign to be succeeded by Minister of War Blanquet Messages have been received here in diplomatic circles to the effect that Huerta's strength was rapidly waning.

Huerta has informed the mediators that D. Emilo Rabasa, a Mexican jurist, and Augustine Garza Galindo, under secretary of justice, have been selected as delegates to confer with the mediators and that a third name will be submitted tomorrow.

It was learned from an authoritative source that Carranza had sent a further telegram to the mediators enquiring as to their requirement for the appointment of a Carranza delegate, the extent of his functions and whether this would be limited to the controversy between the United States and Huerta in which Carranza has no signs of negotiations.

## EDMONTON WHOLESALERS MAKE SMALLER PROFITS THAN OTHER WESTERN CITIES, SAYS FISHER

## HOCKLEY PROBABLY THE NEXT WARDEN AT PENITENTIARY

He Has Been Living in the West for Practically Thirty-four Years.

### THOROUGHLY EQUIPPED FOR SUCH A POSITION

Has Been Active in Fire Brigade and Has Had Military Training.

The new warden of the penitentiary here, in succession to Matthew McCauley, has not yet been named by the dominion government, but it is said that the position will be filled in the near future, and popular rumor connects the name of Robert Hockley with it.

Mr. Hockley came west from near Toronto 34 years ago, and with the exception of one year, has been in the west since that time. Between 1889 and 1883 he was in Winnipeg and belonged to the Winnipeg cavalry, where he secured military experience which should prove extremely valuable to him in the position he is stated to be about to occupy.

In 1888 he went back east, but returned in the following year and began farming at Fort Qu'Appelle, Sask. In 1888 he went to Moose Jaw, then to Lethbridge and afterwards to Banff. In 1892 he landed in Edmonton and, yoked by the length of his stay here, this city is to him the cream of the west, as he has been one of its foremost citizens ever since.

Mr. Hockley has been in the clothing business most of the time since he came to Edmonton, and has been prominent in fraternal, political and other circles. In the Knights of Pythias order he attained the highest rank possible in Canada, being grand chancellor for western Canada for three months prior to the time when Alberta secured a separate district for itself. He has been active in the fire brigade and was once conductor of the city band.

Mr. Hockley has been a consistent conservative all his life, and one of its most energetic and effective workers in Edmonton, even during the years when hardly a corporal's guard of conservative votes could be mustered together in the city. He was official organizer for the party in the city during the 1911 dominion election campaign, and it is well known that the comparatively high vote recorded then was due almost entirely to the local organization.

It is also well known that Mr. Hockley is favorably regarded for the position by the powers that be in the conservative party locally, not only from a political standpoint, but for reasons of efficiency. He has had experience in many lines of business, including the military. His ability to handle with the least possible friction is said to be one of his outstanding qualities. Will he has a personality which is invaluable to one holding a responsible position.

## ENORMOUS EXTENT NATION'S BUSINESS SHOWN BY BUDGET

**London, May 4.—David Lloyd-George, chancellor of the exchequer, introduced his sixth budget in the house of commons today, with the announcement that he had to meet an estimated deficit in 1914-1915 of $26,650,000.**

**The nation's total revenue he estimated at $1,003,275,000, while he placed the expenditures at $1,-029,935,000.**

**French Defeat Moors.**

Fez, Morocco, May 4.—A desperate battle between the French troops and the followers of the native pretender to the Moroccan throne yesterday resulted in the defeat of the Moors, who suffered enormous losses. The French casualties totalled nine killed and 25 wounded.

ROBERT ISHAM RANDOLPH, A.M.A.S.C.E., M.W.S.E.

Secretary-Treasurer, Isham Randolph & Company, Consulting Engineers, Chicago.

## DECLARES VANDERHOOF OUGHT SOON TO BECOME MANUFACTURING CENTER

Robert Isham Randolph, An Engineer With An International Reputation, Says It Should Be This in Addition to Being the Marketing Point for the Nechaco Valley.

Robert Isham Randolph, an engineer of international reputation, is now on his way back to the States from a special trip to Vanderhoof, B. C. on the main line of the Grand Trunk Pacific, to investigate for an American firm the manufacturing possibilities offered at that town by the falls in Stony Creek, a tributary of the Nechaco river fed by the waters of Tachic and Nooiki lakes. The falls are within a short distance of the town.

"The 200 feet of head available at this point, with a steady all-the-year flow, offers unusual possibilities to the manufacturer," said Mr. Randolph. "In the United States where I have worked with the Illinois Rivers and Lakes Commission, a 12-foot head with steady flow is considered a good commercial proposition. My own firm and the people we represent in this enterprise are interested in the unusual conditions presented at Vanderhoof, both as to the hydro-electric aspects and the advantageous locations of the town to serve the railway and the entire Nechaco valley."

Isham Randolph and Co., of which Mr. Randolph is secretary-treasurer, is engineers on the continent. Isham Randolph, the head of the firm, built the $60,000,000 Chicago Sanitary and Ship canal, the largest artificial waterway ever constructed, excepting the Panama canal, and he was one of the five members of the International board of engineers on whose report the Panama canal itself was constructed. He built the famous "Obelisk Dam" for the Queen Victoria Niagara Falls Park Commission, which attracted wide attention in Canada; and recently he served the city of Toronto as a member of the water supply commission which made complete plans for a new water and waterworks system for the city of Toronto. His activities range from Canada to Florida, and he has received various medals and degrees for distinguished achievement in the field of civil engineering.

Robert Isham Randolph, who is on his way back from Vanderhoof, has also had wide experience in engineering projects. His work in connection with the irrigation surveys in the Hawaiian islands is well known, and for a number of years he has been working in connection with the Illinois Rivers and Lakes commission, directing the engineering work on flood prevention, land reclamation and canal and water power development in that state.

"If my official report regarding the available water-power is acted upon, there is no reason why the town of Vanderhoof should not develop at once into a manufacturing center, as well as the market for the Nechaco valley, which the provincial authorities report as being the largest area of rich agricultural land in British Columbia," said Mr. Randolph. "The grading for the yards and sidings at Vanderhoof was completed last fall and the track laying was completed while I was in the vicinity.

"With the direct rail connection now established between Vanderhoof and both oceans, it will be possible to ship in the necessary machinery and building material for the establishment of manufacturing plants. I understand the town is making special concessions for industries and even for small merchants, and the utilization of this important water power ought to give the town a big impetus from the resulting influx of industries and workmen."

## RECENT FREIGHT RATES DECISION IS LENGTHY ONE

Some Things, Apparent on Face, Upon Study Prove of No Benefit.

### SHOULD MEAN MUCH TO CITY AS FLOUR CENTER

Railways Voluntarily Lower Charges on Products to Encourage Mixed Farming

Secretary N. T. Fisher, of the Edmonton board of trade, has been busy for the past two or three days studying the partial schedule of freight rates, decided upon by the dominion railway commission in the recent cases known by various names, but generally as the western freight rates case. The schedule was received the other day by the board from the east.

"The board apparently made a very comprehensive study of the whole rate situation," stated Mr. Fisher this morning. "The finding consists of nearly 200 pages of typewritten paper, foolscap size. I believe the whole question has been gone into very exhaustively and I think anyone reading this through would come to the same conclusion. There are som any different angles to this rate question—so many different things which bear on one or more of its many phases—that it does not take one long, on reading it, to understand that ordering that rates be lowered is not all that it is necessary to do in a freight rates case.

"It may be news to many that the wholesalers of Edmonton are not concerned as to whether rates are lower in and out of here or not, if there be a larger or corresponding decrease to zeal from competitive distributing points, such as Winnipeg.

**Consumer Not Benefitted**

"In such a case it might be argued that the ultimate consumer at least, would reap a benefit in lower prices, but such is not always the case. For instance, take the rates on grain and grain products. These are ordered lowered by this decision, but the amount of the decrease is greater as the distances increase. For a distance of 800 miles, approximately the distance between Winnipeg and Edmonton, the new rate will be 28 cents per 100 pounds, as against the former rate of 12 cents. This will not help the flour men of Edmonton, but rather injure them, as the Ogilvies and other big mills in Winnipeg can, because of the new rate, come right into Edmonton on a more advantageous footing than before. The 14 cents on every hundred pounds will not go to the consumer in lower prices for his flour, but to the Winnipeg flour millers.

**Position Comparatively Better**

"Taken on the whole, however, it seems, from that part of the new schedule which I have studied so far, that Edmonton will be benefitted. The rate under the old schedule from the head of the lakes to Winnipeg, thence to Wahwright on the G. T. P. or Lloydminster on the C. N., was 11 cents per hundred pounds lower than the rate from the head of the lakes to Edmonton, thence back to those points. Under the proposed schedule it will be only four cents lower, which ought to give Edmonton the trade of those centers, because of the saving in time in most shipments and because of the fact that most merchandise, especially groceries, are cheaper in Edmonton, considering freight, than in any other point in the west."

"Do you mean to say that wholesale prices here are cheaper, when freight rates are counted in, than in other cities in western Canada?" Mr. Fisher was asked.

**Freight Part of Cost**

"Yes, Edmonton wholesalers make a smaller profit on their goods, because, as you know, the freight is part of the cost of the goods and, as profits are always figured on the cost, profits must be figured on the freight as well as the rest of the cost.

"Take tinned tomatoes, for instance,

# KAISER ANNOYED AT ATTITUDE OF NATION'S PRESS!

Gives Warning That He Is Displeased That the Mexican Point of View Is Held by the Newspapers in Order to Create Ill-Feeling Against the United States.

Berlin, May 4.—A remarkable anti-American campaign is being waged by the liberal and militarist press of Germany about the Mexican question. Since the beginning of the trouble influential papers, such as the Vossische Zeitung, the Deutche Tage Zeitung, and others of lesser importance, have been pouring abuse upon President Wilson and his secretary of state for their handling of the Mexican difficulty. The German government is greatly annoyed at this extravagant outburst and has warned the newspapers by means of the semi-official Nord Deutche Allgemeine Zeitung, that they must be more careful and reserved. The warning, however, does not appear to have produced the desired effect and the Berlin press, with but few exceptions, continues to look upon the Mexican imbroglio from the Mexican point of view.

This press campaign is another sign of the increasing estrangement between Germany and the United States. While the official relations between the two countries continue to be excellent and the American ambassador is rightly termed the most popular member of the diplomatic corps in Berlin at the present time, there is no doubt that some real feeling of distrust does exist in Germany regarding America. Unless something is done and done at once to abate the present feeling, which it is quite certain rests upon mere misunderstanding, it is likely to assume alarming proportions.

German ears are still ringing with the biting comments which their country's refusal to participate in the San Francisco exposition evoked in America. There has been much resentment expressed of the sharp criticism of America, which, it is contended here, was decided upon merely to safeguard German commercial interests. Germans have been reading in their newspapers with increasing disquiet that "Americans are trying nothing but to capture Mexico, and thereby harm German interests there." The assumption, however foolish it may sound in the United States, has been considered gospel truth here for many weeks and has caused the distrust with which Americans are now environed to increase apace.

# PERSISTENT RUMORS THAT HUERTA GOING RESIGN PRESIDENCY

If He Were to Quit it Might Be That Carranza Would Consent to Enter Into Negotiations With His Successor and Thus Facilitate Mediation—Federals Mine Panuco River.

Vera Cruz, May 4.—Persistent rumors continue to circulate that General Huerta intends to retire from the provisional presidency of Mexico on condition that he be assured a safe conduct to a port and placed on board a foreign warship.

It is declared in some Mexican circles in this city that General Huerta was ready to resign a week ago, but was prevented from doing so by internal dissensions in his cabinet.

The disappearance from the Mexican cabinet of Jose Lopez Portillo Y. Rojas, the foreign minister coupled with reports that there is a growing undercurrent of feeling in Mexico city against the Huerta Government, is interpreted here as foreshadowing a change in the situation in the Federal capital.

Some of the closest observers of the government's position express an inclination to the view that Senor Portillo's resignation may clear the way eventually for the appointment of a foreign minister who, under the Mexican constitution, could succeed Gen Huerta as president.

**Might Help Mediation**

In these circles, it is pointed out that while Carranza declined to treat with General Huerta he might consent to enter into negotiations with his successor and thus facilitate mediation.

The effect of continued rebel successes in the north and the outcome of the pending attack on Tampico bay, according to well informed opinion, bring about a rapid change in Mexico City.

A force of 500 Mexican soldiers consisting of cavalry and infantry appeared at the water works at Tejar nine miles south of Vera Cruz, at 10 o'clock Saturday morning and demanded from Major Butler, the commander, the surrender of his force. The Mexican commander gave Major Butler a 10 minutes in which to comply with the demand, the Major refused it in one minute.

Major Butler reported the matter to headquarters here by telephone and a column of troops were sent to reinforce the marines. The commander of the relieving force was ordered not to fire unless he was attacked.

The action of the armistice which President Huerta announced he has accepted.

Washington, May 4.—Reports to the navy department from Rear Admiral Mayo indicate that the Mexican federal force have mined the Panuco river, the inlet to the city of Tampico from the Gulf of Mexico.

The river is navigable to Tampico for only comparatively light draught vessels. Two weeks ago the scout cruiser Chester, the gunboat Dolphin and one or two other American vessels were lying in front of Tampico in the river. The entire city was directly under their guns and Admiral Mayo was convinced he could have taken the place without the loss of a man.

It was deemed advisable, however, to order the ships from the harbor to the gulf. This scarcely had been accomplished, it is said, before the Mexicans placed mines in the river to prevent the ships from again entering.

Assurances have come from both the Huerta government and General Carranza that the city wells at Tampico will be protected during the fighting there. While there has been no normal agreement to neutralize the wells, the character of the assurances from both factions has removed fears that the wells would be destroyed.

Secretary Bryan communicated to the British ambassy yesterday his latest advices that the constitutionalists and Huerta government would endeavor to protect the wells.

**Blown Up by Mine**

Mexico City, May 4.—A dispatch said to come from Manzanillo, on the Pacific coast, announces that the Mexican steamship Luella was sunk yesterday in the port by an explosion of a mine which had been planted for the United States protected cruiser Raleigh. No loss of life is mentioned. The steamer belonged to the Pacific Railway company.

The situation in Mexico City has every appearance of becoming serious for the administration and is well informed circles it was expected that provisional president Huerta might resign at any moment.

Stomach Always Baulked, Had Constant Indigestion

Smell of Cooking Made Him Sick —Bilious Two Days a Week.

Cured by Dr. Hamilton's Pills.

Mr. Clemmons' experience is not unusual. Nowadays poor stomachs are more the rule than the exception. But the proper treatment is sure to make a quick cure. You can always depend on Dr. Hamilton's Pills, they reach the trouble at once, go right to business, work while you sleep and have you feeling better if not cured next morning.

"My food seemed to decompose in my stomach," says Mr. Ralph Clemmons, of Newbridge, P.O. "I had a stomach that failed in some way to perform its work. Digestion seemed more or less arrested and I grew thin, yellow, nervous. The stomach became distended and impeded apparently the action of the heart, for often at night it would do great stunts. At times I would vomit a mucous mass, and at these times my head ached most terribly. A friend who had been cured of a similar condition, advised me to take Dr. Hamilton's Pills regularly, which I did. The result in my case was simply marvelous. Dr. Hamilton's Pills removed the cause, strengthened the stomach, excited the liver to normal action, the kidneys were released of excessive work. Health soon grew within me. I can now eat, sleep and live like a live man."

Be advised—use Dr. Hamilton's Pills—they are sure to do you good. 25c. per box, five for $1.00, at all druggists and storekeepers or by mail from The Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada.

# "OPENING DAY" BASEBALL GAME DIAMOND PARK

Saskatoon Quakers and Edmonton Eskimos Open Season at 4 o'clock.

**MONSTER PARADE STARTS 3 O'CLOCK, EMPIRE HOTEL**

Mayor McNamara Will Pitch First Ball—W. J. Magrath at Bat.

This is "baseball day" in Edmonton and we have been favored with fine weather for the occasion. The big parade is called for 3 o'clock sharp and a record attendance will be at Diamond park when the hour for the game, 4 o'clock arrives. Edmonton is baseball crazy. Never in the history of the game here, has there been so much interest taken in the Eskimos and so much enthusiasm shown regarding the welfare of the team. This is Edmonton's year and under Lou Nordyke's managership we should have a winning team.

The Edmonton Industrial association who have had charge of the opening ceremonies have all arrangements well in hand and what promises to be a banner day for baseball in Edmonton, has arrived. The association set the attendance mark at 10,000 for this afternoon. Anything nearly approaching that figure would be a record for western Canada. Some of the stories will be closed after 3 o'clock, to allow their employees to see the opening game against Saskatoon, who have one of the very strongest teams ever in the Western Canada league.

All owners of automobiles are requested to be at the Empire auditorium not later than 2:45 for the parade which will start at 3 o'clock sharp. The game will be called at 4 o'clock. Mayor McNamara has been asked to pitch the first ball and W. J. Magrath, president of the Industrial association will be at bat. After the rain of yesterday the diamond will be in the best possible condition and the Eskimos are out to win their initial contest.

There will be music galore at the park. The citizen's band and the news boys' drum and bugle band will be present. Your friends will all be there. Will you?

Pantages will start at 2 p.m. in place of 3 to allow patrons to attend the baseball game.

**Aviator Meets Death.**

Akron, Ohio, May 4.—H. P. Harris, an aviator, was killed by a fall of six hundred feet when his machine collapsed in a flight here yesterday.

# ARGYLL, FORMERLY GOVERNOR GENERAL, DIES EAST COWES

Was Son-in-law of Late Queen Victoria, Marrying Princess Louise.

**SUCCEEDED DUFFERIN IN CANADA, JULY, 1873**

Generally Recognized That He Filled Difficult Position With Ability.

Cowes, Isle of Wight, May 4.—The Duke of Argyll, son-in-law of the late Queen Victoria, and former governor-general of Canada, died Saturday night at East Cowes, aged 69.

John Douglas Sutherland Campbell, ninth duke of Argyll, and possessor of many other hereditary titles, was born at Stafforda house, London, August 6, 1845. He was the son of George, eighth duke of Argyll, who died in 1900. A statesman who held office under several scientific and political works. In early life the future duke was known as the Marquis of Lorne.

The only information respecting his childhood days which has come under particular notice is contained in "Queen Victoria, Journal of Our Life in the Highlands," under date of August, 1847, at which time her majesty and the late prince consort paid a visit to Inverary, the ancestral seat of the Argylls. Speaking of the reception at the castle, the royal journalist writes: "Outside stood the Marquis of Lorne, just two years old, a dear, white, fair, little fellow, with reddish hair, but very delicate features, like both his father and mother. He is such a merry, independent little child." The royal visitor took the little fellow in her arms and kissed him. About nine months subsequent to this event, her majesty gave birth to a daughter who was to become the bride of the Marquis of Lorne, Princess Louise. The wedding took place in 1871, when the marquis was 24 years old. The marriage was celebrated with much splendor at St. George's chapel, Windsor, the bride being given away by her mother. Many people can remember well the rejoicing which the wedding of the heir of the Duke of Argyll to the daughter of the royal house called forth throughout Scotland. The princess had a magnificent reception when she paid her first visit to the ancestral seat of her husband at Inverary.

The future governor of Canada received his early education at Eton, whence he passed successively to the university of St. Andrews and Trinity college, Cambridge. In 1866 he was appointed captain of the London Scottish Rifle volunteers, and subsequently became lieutenant-colonel of the 16th rifle volunteers. During the same year he made a tour through the West Indies and the eastern part of the North American continent. His tour included brief visits to the principal cities of the dominion, including Toronto, Niagara Falls, Kingston and Ottawa. In 1868 he entered the house of commons as member for Argyllshire and continued to represent that constituency down to his appointment to Canada.

He was first mentioned as governor-general of Canada when Sir John Young retired, but it was then considered more expedient to appoint Lord Dufferin. When the latter's term of office expired in July, 1878, the announcement was made that the Marquis of Lorne would be appointed to the office by Lord Beaconsfield. The appointment was hailed with satisfaction in all parts of the dominion and a great deal was made of the coming of a royal princess to Rideau hall. The London Times said shortly after that the experiment which was tried when the Marquis of Lorne was appointed governor-general of Canada has been crowned by complete success. It has been found possible to appeal effectively to the loyalty of our colonial fellow subjects without placing in jeopardy for a moment the dignity of the crown or the solid interests of the imperial connection. It is only fair to acknowledge that Lord Lorne has played a difficult part with remarkable ability."

This comment would have been warmly endorsed by Sir John A. Macdonald, who was his excellency's advisor during his term of office. Princess Louise, however, having sustained an accident in the early part of her sojourn in Canada, lived mostly in England. The Marquis of Lorne devoted himself to literary pursuits and was the founder of the Royal society of Canada. Among his own published works are the "United States of the War" (1885); "Imperial Federation" (1885); Memoirs of Canada and Scotland" (1884); "Canadian Pictures" (1885).

He was made LL.D. of Cambridge in 1902 and of Glasgow university in 1907.

The Marquis of Lorne returned to England in 1883 and in 1892 he contested Bradford for the Liberal-unionists. In 1895 he was elected for South Manchester, and he retained the seat until 1906, when he succeeded to the peerage. He has been governor and constable of Windsor Castle since 1892. Besides he is admiral of the western coast and is lord lieutenant, master of the royal household, Scotland, keeper of the great seal of Scotland, etc. His heir is his brother, Lord Archibald Campbell, banker of London.

**Gave Name to Alberta**

During his stay in Canada as governor general, the Marquis of Lorne, as he then was, wrote a number of poems on Canadian themes. His "Canada," a national hymn is sung in the schools of Canada. Below is reproduced one of his western poems.

Alberta is one of the names of his wife, the princess Louise and was given by him as the name of the new western province.

Alberta, . .
In token of the love which thou hast shown
For this wide land of freedom, I have named
A province vast, and for its beauty famed
By thy dear name to be hereafter known
Alberta shall it be.
Her fountains thrown
From ships unto three oceans, to all men
Shall vaunt her loveliness e'en now; and when
Each little hamlet to a city grown
And numberless as blades of prairie grass
Or the thick leaves in distant forest bower
Great peoples hear the giant currents pass
Still shall the water, bringing wealth and power,
Speak the loved named—land of silver springs
Worthy the daughter of our English Kings.

**Clergyman Falls Dead.**

Toronto, May 4.—Within a short distance of the city of Toronto, whither he was coming to deliver an address to the Canadian Brotherhood at the Metropolitan church, Rev. Silvester Horne, member of the British house of commons for Ipswich, fell dead on the deck of the Niagara steamer Corona on Saturday night at the feet of his wife. The visit of the distinguished visitor to the American continent was for the purpose of delivering a series of lectures at Yale university.

# COLORADO STRIKE TROUBLE SPREADS ALL OVER COUNTRY

Preparing Court Martial Soldiers Held Responsible for Ludlow Burning.

**LEGISLATURE TO MEET, WOMEN COMING STRONG**

Entrances to Home of John D. Rockefeller, Jr., Closed Tight, Fearing Trouble.

Denver, Colo., May 4.—Prominent among yesterday's developments in the Colorado strike war were the preparations for the court-martialing and the arrest and trial in civil court of the 45 members of Company B, Colorado National Guards, who, with two officers of the state militia, were held responsible by the jury for the death of two women and eleven children in the burning tents of Ludlow, and the gathering of representatives for the special session of the legislature, which opens tomorrow. That a resolution to impeach Governor Ammons will be introduced is virtually certain. Whether the house will adopt such a measure is still a question.

When the legislature assembles a body of 500 women will demand an audience. They are members of the Colorado Women's Peace association, who sent a committee to Ludlow to investigate the situation. The committee has returned with the report that not one half of the horrors of what they term the "massacre of women and children" has been told.

The report submitted last night by the military commission, a board created by Governor Ammons himself, finding that the soldiers deliberately set fire to and looted the tents at Ludlow, where the women and children were cremated, will be urged as the strongest evidence of Ammons' alleged inability to govern the state.

Washington, May 4.—Secretary of War Garrison has issued a statement, based on reports from federal officers in Colorado, to the effect that the state troops had committed excesses and had made conditions worse in the strike districts.

Copies of the correspondence between Chairman Foster of the house committee on mines and mining and John D. Rockefeller, Jr., and the operators have been given out.

This correspondance shows that Mr. Foster's demands for arbitration met with refusal and with the allegation that the strikers were responsible for the trouble.

**I.W.W. Interested.**

Tarrytown, N.Y., May 4.—The I. W. W. carried the demonstration against John D. Rockefeller, Jr., to his home here yesterday, and although they could not get by the heavily guarded gates they marched back and forth in front of the main entrance for two hours in silent protest against the attitude he has taken on the Colorado trouble. The Rockefeller home had been mottled of the coming of the agitators, and the estate was sealed tight. Every entrance was chained and locked and at the main entrance three guards were on duty. In other places behind bushes and were ready in case trouble arose.

# GENERAL SICKLES DEAD; ESTRANGED WIFE AT BEDSIDE

New York, May 4.—General Daniel E. Sickles died at his home shortly after 9 o'clock last night. His wife was at his side at the end. He was 89 years old.

Mrs. Sickles, who had been estranged from her husband for more than a quarter of a century, went to the general's house yesterday when she was informed he was dying and took charge of the arrangements for his care. She remained near his side through the night and watched by him until his death.

The final reconciliation was brought about largely through the efforts of their son, Stanton it is understood the general recently having made advances to his wife when assured by Stanton that they would be met half way.

General Daniel Edgar Sickles was the last of the great commanders who fought the battle of Gettysburg, where he had one leg shot away.

Cleveland will bond for $1,3090,000 for a water filtration plant.

# FRENCH WOMEN DO NOT APPARENTLY WANT THE BALLOT

## After Aggressive Campaign by Paris Paper and Feminist Societies, Few Respond.

## ONLY 17,000 OUT OF OVER MILLION VOTE

## General Opinion is That Movement Not Been Advanced by Result.

Paris, May 4.—A remarkable experiment, devoted to a solution of the problem, "Would the majority of women vote if they were allowed?" was made last Sunday at the time of the general election under the auspices of the Le Journal, with the aid of feminist societies.

Over v0 voting booths were set up at various centers of Paris, where all women, irrespective of property or class distinctions, were invited to place a paper in an urn, thus indicating their desire to vote, although not asked to express an opinion regarding the candidates for the chamber of deputies.

Despite the vigorous booming for several weeks previously by Le Journal, the results were hardly satisfactory. Fewer than 17,000 women of over a million, the total female population, responded to the urgent solicitations of the feminists.

The latter, however, express satisfaction, especially considering the variety of voters, who represented all ranks of society. In general, Paris opinion was not impressed and feels that the feminist movement has in no way been advanced by the results of the straw ballot.

# CHARRED WOMAN'S BODY DISCOVERED IN STRAW STACK

## Top of Skull Evidently Smashed in—Arm and Leg Bones Separated.

## APPARENTLY THERE MOST OF THE WINTER

## Thought to Be Mrs. George Ripley, Farmer's Wife, Lost in November.

Jamestown, N. D., May 4.—While plowing on George Spangler's farms, 10 miles south of Jamestown yesterday, boys found a charred human body under a burned strawstack. On examination by the coroner, the body was found to be that of a woman. The top of her skull appears to have been broken, only the lower part remaining intact. The arm and leg bones were burned, broken and separated from the rest of the body. A small sum in silver was found near the body, also a tin pail. The straw was burned about three weeks ago and the body had evidently been in the straw most of the winter.

It is thought that the remains may be those of Mrs. George Ripply, who left her home last November and who has not been heard from since. She was the wife of a farmer and an unitring search has been made for her.

### Runaway Causes Excitement.

Considerable excitement was caused at noon today when a horse attached to a wagon belonging to the Sherbrooke Wood company became frightened by an auto at the corner of First and Rice streets and dashed madly along Rice street. The driver, Nat Burton, was doing his utmost to stop the frightened animal, but did not succeed and the animal continued on its mad run until it finally crashed into a large window of a house on Fraser avenue across from the police station.

# BURDOCK BLOOD BITTERS

## CURED A BAD ATTACK OF ECZEMA.

All skin diseases such as Eczema, Salt Rheum, Tetter, Rash, Boils, Pimples, and Itching Skin Eruptions, are always caused from the blood being in a bad condition, and it is impossible to eradicate them from the system unless you put your blood into good shape. This you can very easily do without the slightest trouble by using Burdock Blood Bitters.

It drives out all the humor from the blood, and makes it pure and rich, and not only are the unsightly diseases removed, and a bright clean complexion produced, but the entire system is renovated and invigorated at the same time.

Mrs. G. A. Day, Somerville, N.B., writes:—"Last spring I had a bad attack of Eczema. I tried several patent medicines as well as the medicine of a physician, but they seemed to make the disease worse. I was advised to try Burdock Blood Bitters, and I did so with the result that in two weeks time the sores began to disappear. I continued to take it until I had taken three bottles and they worked a complete cure."

# ADVOCATES LOANING MONEY FOR PURPOSE OF WORKMEN'S HOMES

That the city lend a portion of its sinking fund on long-term loans for the purpose of building workmen's homes was advocated by J. C. Smith last night at the meeting of the People's Forum.

In support of his proposal, Mr. Smith stated that if legislation of this kind were enacted it would tend to do away to a large extent with the shacks and cheap structures which were creeping up in all parts of the city and at the same time to build up a more sanitary system. It would also act as a great relief to borrowers, and it would do away with the big expense that is entailed at the present time by those who desire a loan for the building. He stated that Toronto and other cities had adopted this scheme successfully, and he did not see why it would not work in Edmonton.

In approving of the proposal, Joseph Adair stated that the interest should be six and a half per cent., instead of eight, as had been mentioned. E. Poole, on the other hand, said that rents had fallen of late, and thought that the problem of cheap power for manufacturers was more important.

# GENERAL FUNSTON OWES PROMINENCE TO EDMONTON MAN

(Continued.)

war was going on. Brigadier-General Funston, whose name can be seen in the daily papers almost any day now, was then Colonel Funston, and the 20th Kansas infantry was his regiment.

Although the battle of Calumpit, with which this story is connected, was a vital part of the whole Philippine war, the story of the whole campaign need not be gone into in detail. Suffice it to say that the island on which Manilla is situated, the most important of the group, has a great many rivers, from three to five miles apart, and the manner in which the natives fought the United States troops was much the same as that employed by the Boers in South Africa, except on a smaller scale.

The country was known to the natives like a book to one who has studied it minutely. However, the modern fighting methods, machine guns and rifles, combined with the fighting quality of Uncle Sam's soldiers, enabled the latter to drive the natives back farther and farther, from one river to another, day after day. At each river trenches and fortifications protected the Philippines, while the Americans were more or less exposed to fire.

### Last Stand Made.

At the Rio Grande river, however, on which was situated the town of Calumpit, a last-ditch stand was made. A railroad crossed this river at Calumpit via a magnificent bridge. It was a strategic point and it was known that the real fight of the campaign would be there.

On April 26, 1899, the Yankee soldiers, after weeks of driving back the blacks, faced the latter at Calumpit. The Philippines were on one side of the river; as usual, behind almost impregnable trenches and fortifications; the Americans on the other with modern guns and a lot of confidence, but comparatively unprotected.

All day long the invaders kept up a steady fire, with rifles, galling guns and machine guns, but with more loss to themselves, in cost of ammunition, than to enemy in loss of life. The river had to be crossed, but the negroes had taken every part of the railway bridge away except the frame work, and used it for their fortifications.

Funston decided that some one had to swim the river at a certain point where it was seen that a rope could be tied to the fortifications of the enemy at the other side, strung across and used to convey the Americans over on a bamboo raft, which had been found floating down the river by some of the soldiers while bathing in the afternoon. To get a rope across one would have to swim the stream, which was swift-flowing at this point, take a rope across, tie it to the fortifications, right under the nose of the blacks, only four or five feet away—and get back alive, if possible.

Mr. Trembley, then a private, afterward a police judge in Kansas City and now an insurance man in Edmonton, was picked out, or rather picked himself out, to do this little job. Another private named White, now deceased, also volunteered to go over; both insisted on going, although only one was needed.

### Firing Began.

When the two men began to swim across the whole United States brigade, up and down the river for two or three miles, immediately started to fire at the opposing army. They did this, not with the intention of wrecking their trenches or killing them off, but to prevent them, if possible, from firing at the two heads of the men swimming across the river.

One does not need to be imaginative to have an idea of what a thrilling position Trembley and his companion were in between two armies firing all their guns at each other. The judge, in telling the story, talks about Funston as if he himself had nothing to do with it. In fact, to a Capital reporter he stated that it was the Americans firing at the blacks who took all the risk and not he. However, the bullets were dropping all around him like drops of rain. It was then dark and he could see every bit of frame work on the partially wrecked railway bridge by the light of the two Philippine cannon which were firing at full capacity at the American army opposite and completely controlled the bridge.

This series of events, of course, took longer to occur than it now takes to tell, but when the two men finally reached the other side of the river, the Americans were compelled to stop firing at the point where it was desired to attach the rope Trembley carried in his hand. They, however, continued to fire at each side of that particular trench. How near Trembley came to not being a citizen of Edmonton today can be seen from the fact that he and White were compelled to withdraw once and have the U.S. troops again fire at the Philippinos in the trench.

After a few minutes of firing Trembley again signalled to cease, and finally got the rope tied to the trench, only three or four feet of earth separating him from the enemy at the time. It will be making a long story short to say that it was only a comparatively few minutes till a detachment of American soldiers got across the river, via the bamboo raft and the rope, then another, and another, were sent in behind the trenches to fire on the enemy from a partly sheltered position (a corn field) at the back.

With firing directed at it from both sides the black army was soon broken up, an American regiment of engineers had in a short time planked the bridge, making it possible for the whole army to come across and the battle of Calumpit, the pivotal engagement of the whole war, was won.

This was on April 27, 1899, or exactly one year after Trembley's enlistment, just fifteen years last Monday and fifteen years and one day ago last Tuesday, when Funston landed at Vera Cruz, in the present Mexican campaign, and had a daughter born in San Francisco, his present home—both on the same day.

Col. Funston was made a brigadier-general for his work in the battle of Calumpit, while Trembley and White received gold medals for distinguished gallantry" from the president of the United States, then William McKinley on February 7, 1902. At that time Col. Roosevelt was vice-president, and known personally to Mr. Trembley.

The people of Kansas City also presented Trembley with a gold medal, and probably as a result of his exploits in the war he was elected city clerk after returning, at the age of 22. After a couple of two-year terms in that capacity he was elected police judge for a term. He has been in insurance ever since, coming here last year.

Funston afterwards gained considerable notoriety by his thrilling capture of Aguinaldo, the president and leader of the Philippinos. He practically took his own life and that of five other American officers in his hands. His superior officer at the time told him he would surely be killed if he tried it—he tried it and won, but that is another story.

Washington, D. C., May 4.—President Wilson plans to go to Brooklyn and meet the Montana which is bringing to the United States the bodies of the men killed at Vera Cruz. This

# Gives up Hope Because of Drink

The drink habit is a discouraging habit both to the drinker and to the drinker's family. Drinking men promise themselves and their families they will stop drinking but always fail to do so, because the craving for drink is stronger than the will power to resist. If you are discouraged by repeated failures to stop drinking investigate the Neal Drink Habit Treatment, which is a sure, harmless, vegetable remedy that removes the craving for drink in three days without the use of hypodermic injections. Call or phone for full particulars. Get our proof that the Neal Treatment will make you a sober man.

NEAL INSTITUTE
820 18th Ave., W. Phone W. 4525

# WHEN RHEUMATISM STRIKES THE HEART IT KILLS—"NERVILINE" THE CURE

## Effect of Nerviline of Chronic Cases Is Almost Magical.

Exposure to wet or cold is apt to bring on an attack.

The muscles stiffen, the joints swell, and exertion brings on excruciating twinges.

Often the pain shifts from one part to another, and this is dangerous, as the heart is apt to be attacked. Death as a rule follows a heart attack.

The pain of rheumatism is quickly rubbed away with Nerviline.

This is a swift, lasting, and safe way to cure rheumatism. You can depend on Nerviline. It has the power, the penetrating force, the control over pain that is so essential to a rheumatic remedy.

Lots of testimony to prove Nerviline's certainty to cure.

The following letter is from Mr. E. G. Smitter, Port of Spain, Trinidad: "Last year I was severely troubled with rheumatism. I had it in my arms, shoulders and knees. The pain was at times excruciating, and laid me up so that I couldn't work. I went to Smith Brothers' Drug Store and was advised by the manager to use 'Nerviline.' That was excellent advice. I used Nerviline as directed and was cured, completely cured of every trace of my old enemy."

Once you use Nerviline you'll realize it's different from all the others—that it contains something that gets right "at" the pain the minute you rub it on. The large 50 cent family size is the most economical—get it today, or else the 25 cent trial size. Sold by dealers everywhere, or the Catarrhozone Co., Kingston, Canada.

# ORCHESTRA DIRECTED BY FILM SHOWING CONDUCTOR IN ACTION

Berlin, May 4.—An orchestra sat in front of a sheet of canvas in a darkened room. The celebrated director, Felix Von Weingartner was sitting in the room, but not near the stand; as a matter of fact, there was no director's stand. An uninitiated person might have wondered how the orchestra expected to play without a leader.

Suddenly the canvas lightened and a well known director appeared on it. It was but a film, but it was hard to realize it.

The pictured leader raised his baton and the orchestra struck up the Carman overture. Straight through to the end it went without a break, the orchestra following the leader as if he were before them in flesh.

Dr. Weingartner said afterwards:

"It was amazing and no doubt it is possible with the aid of such a film to give as artistic a performance of orchestra pieces as that rendered by the baton of a living director."

Well known musicians join in hearty praise of the new film, which will make possible for future generations actually to see the great leaders of today direct orchestras.

# RECENT FREIGHT RATES DECISION IS LENGTHY ONE

(Continued.)

In the east I believe they retail at three tins for 25 cents, while here in Edmonton they are two for 25. However, the Edmonton wholesaler pays 13 cents per pound on the three tins. If both the wholesaler and the retailer figure my profit on the money they pay out in freight, and there is no reason why they should not, it can easily be seen that either the eastern merchant makes a large profit on his goods or his western brother very little.

"There are a great many reasons why this condition exists—the fact that Edmonmonton wholesale prices are cheaper than obtain in any other city in the west—but it is true, when freight is taken into consideration, however, it would take a great deal of studying and explaining to tell it all."

### Saskatchewan Prices Higher

Mr. Fisher then went on to contrast Saskatoon prices with those of Edmonton, showing that, while freight charges from the east to that city are less than those to Edmonton, prices are the same or higher.

He then explained briefly some of the changes in rates which will come about by the recent ruling. There are slight reductions on some dairy, poultry and packing house products, but they amount to practically nothing for short distances. However, the railways themselves recently made reductions in these commodities for the purpose of encouraging diversified farming, and the finding explains that the board did not consider that further big reductions should be made at the present time.

### Should Help Millers

Local rates on grain and grain products, including flour, are lowered, also the rates on these products to the Pacific coast and points adjacent thereto. It is thought that if the same basis be used to determine the rates from Edmonton to the coast via the two new transcontinental roads, the G. T. P. and C. N., the benefit to Edmonton will be considerable.

In such an event, which is thought very probable, the position of this city as a flour manufacturing, grain and flour distributing, and flour exporting point will be well nigh impregnable, provided cheap power can be obtained as expected.

### Coal Men Worse Off

There is a small reduction ordered in coal rates from Edmonton, but not as large as the corresponding reduction from Lethbridge. From here to Saskatoon, for instance, the reduction is 45 cents a ton, from Saskatoon it is 65, which Mr. Fisher says puts Edmonton in a comparatively worse position than before.

Mr. Fisher had no comment to make on the fact that the commission, in its ruling, virtually established as a precedent, and a just and proper promise, the fixing of rates in the west irrespective of those in the east, which are considerably lower, although it is stated that the average cost of building and maintaining the latter is higher in the east than the west. He merely stated that he thought the commission had made a very exhaustive study of the question and its conclusions seemed to be sound to a great extent.

Children Cry
FOR FLETCHER'S
CASTORIA

# G. O. SANBORN, OF SEATTLE, PROPOSES TO START SWEATER FACTORY HERE

Mr. George O. Sanborn, of Seattle, was in Edmonton several days last week, trying to get enough local capital interested to join with his own supply of money and machinery, to start a factory here to make sweaters.

Mr. Sanborn is a man of long experience and much success in this line of manufacturing and, Industrial Commissioner Hall, whom he saw in regard to his plans, says that the proposition appears to be a good one—thoroughly feasible and altogether sound.

This business can be started in Edmonton with $2,000. The business should grow to a very large size if properly managed.

# SIGNIFICANT ACTION IN RAISING SPANISH ARGENTINA LEGATION

Washington, May 4.—King Alfonso Saturday signed the decree raising the Spanish legation in Argentina to the rank of embassy, according to official advices received here tonight. It will be the first embassy in Buenos Ayres and the Argentina government is expected to take prompt action in reciprocating. This is regarded in diplomatic circles here as particularly significant in view of the uniting of forts of Spain to promote the closest possible relations with her former colonies in America. It is believed here that other European powers will follow suit.

# DEMONSTRATION FOR MEXICO AGAINST THE UNITED STATES HELD

Brussels, Belgium, May 4—Under the Auspices of the local Nispano-American committee, there was a demonstration in this city today in favor of Mexico and against the United States. Several hundred persons, chiefly students from the Universities of Brussels Liege and Louvait took part. The demonstrators marched with flags to the Mexican Legation where speeches were made on the subject of American aggressions in Mexico.

Carlos Terreyra, the Mexico Minister, appeared before the crowd and said in reply that the comunity of sentiments of the Latin-American countries in the face of foreign aggression meant the integrity of these states.

"A collective moral force is stronger than armies," he declared.

# SUFFRAGETTES USE BUTCHER'S CLEAVER TO RUIN A PAINTING

London, May 4.—The portrait of Henry James, the novelist, by John Singer Sargent, the American artist, hanging in one of the galleries of the Royal Academy, was ruined this afternoon by a suffragette who gave her name as Mrs. Wood.

Carrying a butcher's cleaver under a cloak Mrs. Wood approached the painting in a casual manner and while the attendant was in another part of the room slashed the picture repeatedly before the horrified crowd interfered.

Mrs. Wood was accompanied by a man who attempted to impede those who restrained her. The crowd gave him a beating before they took officers appeared Mrs. Wood was turned over to them.

# BOARD OF EDUCATION SENTENCED TO PRISON FOR CONTEMPT COURT

Chicago, May 4.—Eight members of the Chicago board of education including its president today were sentenced to 30 days in the county jail for contempt of court for refusing to obey the order of Circuit Judge Foell reinstating four members of the board.

The four reinstated members voted against Mrs. Young and their resignations signed before they took office were accepted by Mayor Harrison. Judge Foell held that the resignations were void.

### Police Rebuilding Auto.

The McLaughlin car which was discarded by the police department last year and replaced by a new Ford car, is being rebuilt by the mechanics of the department at an expense of $200. This will give the police another car which is very desirable for patrol purposes especially in case of a reported robbery as at the present time there is only the new Ford car purchased last year and the patrol, which, as it sometimes happens are both in use when wanted in an emergency. The rebuilding of this car and placing it in commission again, means a saving to the city as the work of the police department is growing at such a rate that it would be necessary to otherwise purchase another car.

### Bad Fire at Idlitarod.

Fairbanks, Alaska, May 4.—Flat City, in the Idlitarod district, was almost wiped out by fire yesterday, according to a wireless advice received today. Twenty cabins were destroyed, including the Arctic Brotherhood clubhouse.

### Senator Gibson Dead

Hamilton, Ont., May 4.—William Gibson, senator and capitalist died at his home in Beamsville today, aged 65. He was for years president of the Bank of Hamilton, and of the Hamilton Jockey club, senator Gibson was interested in a large number of financial institutions both in Canada and the United States.

### Bloodless Duel Fought

Paris, May 4.—Joseph Caillaux, ex minister of finance, and Fernand D'Alilleres, M. Caillaux's opponent in the recent election to the French Chamber of Deputies, fought a bloodless duel today with pistols. M. D'Alilleres fired twice at his adversary but neither shot found its mark. M. Caillaux fired in the air.

The duelists were placed 25 paces apart. The encounter took plaes in the Parc Des Prince.

# Tuesday the Tango at Edmonton's Afternoon Tea

## Fashionable

INTRICACIES OF THE WORLD-ILLUSTRIOUS DANCE ILLUMINATED BY EXPONENTS OF PHYSICAL FINESSE AND NIMBLE FEET.

The TANGO TRIPS SPRITE-LIKE INTO THE HUDSONIA Dining parlors tomorrow afternoon to the lilting music of its own creation,—a select performance for the pleasure and education of all who gather here for a precise little cup of tea,—a tidy helping of French pastry,—a delicious little "safety" chicken sandwich,—or some other of the delectable morsels of goodness to be enjoyed at fashionable afternoon teas.

Whether you Tango yourself, or prefer to watch, you'll be equally as much charmed with the entertainment. Dance if you wish,—delightfully conducive atmosphere. Study and practice to acquire the steps if you are so disposed,—many learn here. In spending a half hour or so here you will become enamored with the fine flavor of it all,—and covet to come again.

HUDSONIA AFTERNOON TEA—FLOOR 4

# Toot, Toot! Carload of Oranges in!

Best thing ever grown to flag a new appetite,—tonic, too, are fresh ripe oranges. Don't need to tell mother more than the price; she knows what to do with them! See those pantry shelves weighed down with fritters, "frosty" cakes and such,—all inspired by this new shipment of golden oranges?

# Tuesday Away They Sail!

Incidentally in a sale from which hundreds of homes will profit. Luscious products indeed,—but be sure you order early. Per case ..... $3.38

Sizes 150's, 170's and 200's.

Phone 6141

Phone 6141

The Hudson's Bay Company.

# SATISFACTION DEMANDED BY ITALY BECAUSE OF THE COLORADO STRIKE

Rome, May 4.—The Giornal D'Italia comments today on what it characterizes as the "insufficient" answer of Secretary Bryan in the matter of standing of Italians in the Colorado strike zone. The paper makes reference to the "massacre of Italians in Colorado" and demands satisfaction from the American government whose lack of precautions, it says, caused the conflict.

# HOLDING MEETING TODAY TO DECIDE UPON CALLING GREAT AMERICAN STRIKE

Indianapolis, Ind., May 4.—The question of calling a general strike in the mining industry of the country will be taken upon at a meeting of the international officers of the United Mine Workers of America, and the executive board to be held here today. At the offices of the organization it was said that petitions had been received from all parts of the country asking that a general strike be called.

Switzer & Co., Edson, Alta.; Jeffries Cigar Store, Edson, Alta. CALGARY—Alberta Hotel.

Readers of The Capital are requested to favor the management by reporting any irregularities in delivery.

## THE QUESTIONS WHICH AFFECT THE NATION AND THE HOME

In political controversy, militarism is the tory's best asset. Conservatives would much rather wave the flag than discuss questions of political economy, social justice or ethics. When they can bring liberal or reform campaigners into the realm of militarism, the battle for the conservatives is more than half won. Appropriating all the patriotism, militant imperialism, respect for the king and allegiance to the flag, and branding those who would discuss other questions as traitors to their country, the conservatives assume the role of defenders of stability and a bulwark against disintegration of the empire.

And so we find Borden talking emergencies and battleships, Sam Hughes building armories and shouting conscription, Tom Wallace wiring the Unionists that Centre York stands ready to take the field against home rule, and Frank Cochrane assisting in the presentation of a sword to Carson.

Meanwhile, tariffs pile up and railway knights fill their sack at the public treasury while the farmers and the toilers in the army of industry, upon whose labors the greatness of Canada depends, find the burden increasing and their only solace in the increasing glitter of arms, the thud of horses' tramp, the serried ranks, the bivouac, the flash of crmison and gold and the ever-present taunt to friendly nations to send forth their sons to kill and be killed.

Canada has all the essentials to the making of the greatest nation in the world, a peaceful people, a fertile soil, natural wealth of fishery, forest and mine beyond the wildest imaginings of Richeleau's dreams of empire. She has no quarrel nor cause for quarrel with those beyond her borders. Relieved of the wreck and wastefulness of war, humanely governed and wisely administered, with justice prevalent and special privilege eliminated, she is broad and rich enough to house and home in comfort and peaceful plenty the entire Caucasian population of the globe.

Until, by the accidental thoughtlessness of its electorate, Canada placed in power at Ottawa a government which does nothing and promises nothing for social justice, Canada had never known this plague of toryism with its appeal to the primitive passions. The deflection of public attention from the intimate questions which affect the fireside, the dinner table and the Saturday pay check was too subtle for the Canadian mind to immediately grasp. Now, with the fruits of the tory intent commencing to show themselves on the statute books, normal and home-loving Canadians are coming to grasp the significience of it all. Very soon Borden and his friends will be called upon, by public demand, to state their stand upon the real questions of the day. In the piling up of tariffs, the bargains in the interests of promoters, the trek of people from the farms to the cities, the continued increase in the cost of living, the increasing swarm of men looking for work and finding none, the riveting of privilege—do these things constitute the conservative conception of the triumphs of statesmanship?

Some day, in the not too distant future, the Borden government will have to answer; and the answer will be, not to an electorate which is careless and inattentive, but to an electorate which has been roused by the realization that the questions which are now being ignored are prosperity of the individual, the progress of the nation and the comfort of the home.

## WHY BRING SANDFORD EVANS INTO STOCK YARD CONTROVERSY.

With no intention whatever of attempting to discount the capacity of willingness of the gentleman to give an opinion upon the question, it is difficult to understand just why Ex-Mayor Sanford Evans of Winnipeg should be brought into the Edmonton stock yards controversy.

The stock yards question, up to this time, should never have been allowed to get beyond the stage of outlining the method of management and the system of organization which will be pursued, and upon this point the discussion should have hinged until something definite had been arrived at. It is all very well to say that there should be a public stock yard for the purpose of furnishing an open market for shippers of live stock, so that their shipments could be brought into the city with some certainty that they would not be in the hands of a packing-house and shipping monopoly after arrival. But while this is the intention, it must always be remembered that the largest buyers in any stock yard will always be the very packers and shippers whose monopolization of the business is most dreaded. Therefore, first of all, it must be known that the enterprise is to be so ordered that the packers and shippers will be able to deal; and they are the people who, first fo all, should have been consulted.

This, however, has not been the procedure. Instead, the discussion has turned immediately to the question of site, and in spite of the fact that the city has all the legal authority necessary to select whatever, site it may chose within the city limits, the project has been placed before the council with a predisposition for a certain site which si outside the city limits altogether and a mile and a half from the extreme limit of the extension of the present utilities, to say nothing of being the same distance away from the places of business of the packers who will have to be the principle buyers. Failing their readiness to trade in a stock yards a mile and a half away, there will be no market; and the stock yards will become a white elephant on the hands of the ratepayers.

The question, therefore, is one which is not up to Sanford Evans to answer, or to any imported expert who may know all about the finances of the Winnipeg stock yards, or some other, but nothing about the workings of the minds of Edmonton packers. On the contrary, the question is one which can only be answered by Edmonton packers.

So far, two of the packers have answered. The Swift's representative and Mr. Gainer have declared that the stock yard which would suit them best would be one located at their doors. Undoubtedly the representatives of the other packing plant would give the same answer if the same question were submitted to them.

What Sanford Evans may be able to add to this as to the history and expenience of the stock yards with which he is identified in an actuarial capacity cannot in any way detract from the weight of the testimony of the packers themselves.

## FORMING ITS OPINIONS BY ABSENT TREATMENT.

With humble deference to superior ability, the Journal has decided to await the pronouncimento of Richard Bennett, M. P., before assuming to form any conclusions as to the merits or demerits of the agreement which is to be entered into by the Borden government for the relief of the Canadian Northern railway and Mackenzie and Mann.

The Journal's conclusion shows that it at least appreciates its own incapacity to come to a sane conclusion without aid. But while it is awaiting the unleashing of Mr. Bennett's oratory it might give the world the benefit of its opinions as to Mr. Bennett's past performancse, and of the performances of the gentle pilgrims from Alberta who journeyed to the national capital not so long ago on a very important, if futile, mission.

Mr. Bennett, when he went to Ottawa, was going to get the natural resources for these prairie provinces or raise considerable disturbance. He did not get the resources; nor did he raise the disturbance. On the contrary, htey locked him out of the cabinet and told him the times when not to speak. Up to the hour of going to press he has not spoken, at least not to any degree that cluttered the dispatches. And the resources are still where they have been since Mr. Borden first had an opportunity to make good his memorable promise—in the hands fo Bob Rogers. With a day or two to spare, the Journal might have room to congratulate Mr. Bennett upon his party loyalty in refraining from starting rough house over the resources question.

As for the pilgrims, the whole world knows that what they went for was to back up Bennett in the demand for free wheat. And, did they get it? Not to any great extent. Mr. Crawford got a new rural free mail delivery route somewhere in his constituency and Dr. Stuart got an elevator, or some such thing. But the budget made no mention of free wheat being granted as a concession to the representations of Alberta conservatives. And following the visit of the pilgrims there has been a large, opaque silence, with not a cheep to indicate that they resented having their minds made up for them at headquarters. Undoubtedly the Journal will find in this something worthy of its heartiest commendation.

If the jewels of consistency were material instead of metaphorical, the Journal would be wearing the Koo-hi-noor. It felicitates from day to day the Alberta conservatives who have their opinions and their policies made up by the powers that be in Ottawa. And it rounds this out by delegating to the only Alberta conservative in Ottawa the absent treatment of making up its own mind on the most important question of the day.

## WAS HUERTA LOOKING FOR AN AVENUE OF ESCAPE.

From Mexico city now come the rumors that Huerta is willing to resign if he can be assured safe passage out of the country. Huerta adherents in Mexico City fear more the arrival of Villa in the streets than of the American soldiers, and this undoubtedly applies to Huerta as well as to his followers. Villa has always been very dfeinite when speaking of Huerta. His intention, he has declared, was to hang him in the public square, and continued constitutionalist successes in the north may have convinced Huerta that unless he could find some way out of the country under proper escort there was a first class chance that Villa would make good his gruesome threat. Huerta may have judged that there was no great danger of the United States troops taking any such immediate personal interest in his going out, and that, therefore, precipitating a mix with Uncle Sam had the double advantage that if it did not bring the rebels to his standard would at least furnish him an avenue of escape.

## TODAY IN DOMINION HISTORY.

Sir Louis Henry Davies, Canadian jurist, was born in Charlettetown, Prince Edward Island, 69 years ago today, May 4, 1845, the son of Hon. Benjamin Davies. He was educated at Prince of Wales college and in 1866 he was called to the bar of the Inner Temple in London. He returned to his native Province in 1867, the year of confederation. Prince Edward Island had remained aloof from the union, and was still an independent province when the young barrister became its solicitor general in 1869 and again in 1872. He played a prominent part in the movement which led to Prince Edward Island joining the dominion in 1873. In September 1876, after several years in the legislative assembly, he became premier and attorney-general of the province, being then only 31 years of age. For nearly three years prior to his elevation to that high honor he had been leader of the opposition. He remained at the head of the provincial government until 1879. Three years later he became a national figure by election to the dominion house of commons, representing Queen's county, and was re-elected continuously until he was made a judge of the supreme court. When Sir Wilfrid Laurier became premier in 1896, Judge Davies became a member of his cabinet, holding the portfolio of minister of marine and fisheries. He was knighted in 1897, the same year that a similar honor was conferred on Sir Wilfrid, and that year accompanied his chief to Washington to take up the Bering seal question. In 1898 he was one of the joint high commissioners for the settlement of all disputes with the United States respecting Canada. In 1901 Sir Louis retired as a member of the government and left the political arena for the quieter and more congenial atmosphere of the supreme court.

## FIRST THINGS

A. ...ichism.

The first anarchist riot in America occurred in Chicago 28 years ago today, when the police charged an anarchist meeting in Haymarket Square. A bomb was thrown which exploded and killed seven policemen and injured a large number of people. Two thousand persons had assembled to hear August Spies, Albert R. Parsons and other anarchist leaders preach their philosophy. After Spies and Parsons had made mild and harmless addresses, Samuel Fielden mounted the truck platform and began an incendiary speech. The police then charged the crowd, and the bomb was thrown. The identity of the bomb-thrower remains a mystery, but Spies, Parsons, Fielden, Adolph Fisher, George Engel, Louis Lingg and Michael Schwab were arrested, charged with complicity in the bomb plot, and convicted. Spies, Parsons, Fischer and Engel were hanged, Lingg committed suicide, and Fielden and Schwab were sentenced to life imprisonment, but were pardoned in 1893 by Governor Altgeld. At the time Altgeld was severely critized for his action, which practically ruined his political future, but since then many eminent legal authorities, after studying the evidence, have declared that the anarchists were not convicted by due process of the law they had defied

Sour Stomach

Sour stomach, gas, griping pains in the abdomen and stomach, liver trouble in the form of biliousness, indigestion, etc., find up in the effective action of Parmelee's Pills. They tone the whole system, without that after-effect. They tone the whole system. Price 25c.

Parmelee's VEGETABLE Pills

## TODAY'S BIRTHDAY PARTY

**Judge George Gray, 74 Today, to Retire From Public Life.**

Judge George Gray, the eminent Delaware jurist who has twice been mentioned for the presidency of the United States, was born at New Castle, Del., seventy-four years ago today. His retirement from the federal bench which was recently announced, will follow a service of fifteen years as United States judge for the circuit embracing the states of Pennsylvania, New Jersey and Delware. Before beginning his judicial career Judge Gray was United States senator from Delaware and a leader in democratic political circles and on two occasions he was put forward as a candidate for the presidential nomination. During the period when "free silver" was a democratic issue the Delaware statesman was affiliated with the gold wing of the party. In 1900 he was appointed a member of the International Permanent Court of Arbitration at The Hague, and one of President Taft's last official acts on the closing day of his administration was to reappoint Judge Gray as a Hague commissioner. He was a member of the Joint High Commission at Quebec in 1898, and chairman of President Roosevelt's anthracite coal strike commission.

Walt Mason, who is one of the few modern poets who have made poetry profitable, was born in Columbus, Ont., fifty-two years ago today. He was eighteen when he left Canada to embark in newspaper work on the southern side of the international boundary. He served his apprenticeship in journalism under the gifted editor and novelist, Ed. Howe of the Atchison, Kan., Globe, and later worked on the Lincoln, Neb., State Journal, the Washington Evening News and other papers, returnig to Kansas in 1907 to join the staff of William Allen White's Emporia Gazette. Mr. Mason is becomingly modest about his success as a writer of prose poetry, but a little inclined to be boastful of his achievements as a "hoss"-trader. His greatest feat in that line was when he started a venerable and decrepit animal and, after making a dozen "swaps" in two weeks, finished with the horse he began with and eighty dollars in cash.

Prof. Charles Zueblin, owner of Speaker Champ Clark's goat, belongs to the Hoosier school of literature and economics, although now a resident of Massachusetts. He was born forty-eight years ago today in Pendleton, Ind., and was educated at the University of Pennsylvania, Northwestern University, Yale, and the University of Leipzig, Germany. After several years as a member of the faculty of the University of Chicago, Prof. Zueblin settled in Winchester, Mass., and has since devoted himself to writing and lecturing on various reforms. Prof. Zueblin got Speaker Clark's "goat" not long ago by charging him with being the leader of the "House ring" and with having misused his powers, which so angered the Missouri statesman that he arose to his first presentation of a question of personal privilege in his twenty years of congressional service. Prof. Zueblin is a friend of the woman suffrage movement and in a recent address predicted the speedy coming of an age of humanitarianism when "intellectual gifts will be more valued than mere acquisitiveness, and woman will be the inspiration of man."

Abraham Lincoln Erlanger, the "drama trust" magnate, was born in Buffalo fifty-four years ago today. was educated in Cleveland, and began his connection with the theatrical business as a press agent.

India's jute fibre crop for 1913 is valued $151,481,764; cotton $171,796,509; cottonseed $48,519,681.

There is more whisky now stored in Kentucky than there was in the whole country a decade ago.

## TODAY WE CELEBRATE

**Centenary of Napoleon's Arrival at Isle of Elba**

An "empire" eighteen miles in length and twelve miles in extreme width such is the Mediterranean isle of Elba, to which Napoleon was consigned by the victorious allies and where he arrived one hundred years ago today, May 4, 1814, and received the homage of his new subjects. Elba, long a place of pious pilgrimage for tourists from all nations, will celebrate the centenary today with great eclat, for Elba lives chiefly in the memories of that ten months' of comic opera when the man who had all but mastered Europe ruled his banished royalty, and, like a child with a new toy, issued foolish decrees which began: "Napoleon, Emperor, Sovereign of Elba, to his People." Utterly devoid of a sense of humor the Emperor must have been to take his new position so seriously. It was a huge joke that the powers played upon the Corsican in permitting him to retain the title of Emperor and awarding him a "kingdom" that placed him on the same footing with the Sultan of Sulu and the King of the Cannibal Isles. If Napoleon had remained there he would doubtless have become what his enemies intended he should become—an object of derision, the butt of the world's sneers and jeers. But he did not stay, and the glory of the "Hundred Days", the carnage of Waterloo, the culminating tragedy of St. Helena, restored Napoleon to a place among the world's heroes.

St. Helena was grim and terrible. There humanity pictures Napoleon "with his hands crossed behind him, gazing out upon the sad and solemn sea,"—a caged lion feared by all the world. Elba was trifling, pitiful, petty, insignificant, and there Napoleon was a caged monkey to be fondled and

Napoleono, haggard and shaken by the events of the year past and his attempt at suicide, was transported to Elba on the British cruiser "Undaunted." When he landed at Elba the whole populace turned out to cheer and welcome him. His first residence was the town hall of Porto Ferrajo, the little island capital, a town perched on a rocky northern cape, with flat-roofed houses built in tiers and surrounded by a wall, it's streets mostly stairways. Soon after his arrival Napoleon had built for himself a "palace" on a height above the city—a "palace" in keeping with his kingdom, since it was little more than a country villa. The Mulini Palace is now the property of the town. As a Summer residence Napoleon also had constructed the villa of San Martino, which was the "St. Cloud Palace" of his petty kingdom. This villa is now private property. It was there that Napoleon was visited by the charming Pole, Countess Walewska, of whom he had long been enamored, but the Emperor had more serious things to think of then the revival of a love affair, and the pretty baggage was soon ordered to leave the island.

It was May 4, 1914; to Feb. 26, 1915, Napoleon the Great played the role of Napoleon the Small at a burlesque court. But all the time he was thinking, thinking, and the tenor of his thoughts led him to that day when he shook the dust of little Elba from his feet and stood once more on the soil of France and of the continent of Europe. In landing France en route to Elba he had had to disguise himself in an Austrian uniform to escape the insults of the populace. When he returned, a single man facing his will and feeble strength against the millions of the most powerful nations, the audacity of his act aroused his former subjects to wild enthusiasm. The army of the Bourbon king refused to fire on the little man in the tattered uniform and within three weeks of landing at Cannes Napoleon was back in Paris.

One of the speeches which has been a hit in "Help Wanted," the play written by Jack Lait which has pleased both New York and Chicago, strange as it may seem, is this one, delivered by an experienced stenographer, to whom is just beginning her business career: "You'll meet a lot of men of the kind you never met before. Men who do things and are things—men who don't have to wait till Saturday night for their incomes and their holidays. They'll hypnotize you with their forcefulness till your head will reel at the thought that little you has been noticed by such giants. While they're looking in your eyes they're framing an alibi in their heads; they fight and swindle each other; these business men, and a child like you is—well, just a child."

Troubled With Weak Back and Kidneys For 10 Years.

Many people fail to understand the significance of a lame, weak, sore or aching back.

When the back aches or becomes weak it is a warning that the kidneys are affected in some way.

Take notice to the warning and cure the backache on the first sign, for if you don't do this, serious complications are sure to arise and perhaps develop into Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney trouble.

Doan's Kidney Pills will strengthen the weak back, and prevent all form of kidney trouble entering the system.

Mrs. Ed. Boyer, Nokomis, Sask., writes:—"I have been troubled with weak back and kidneys. I had terrible dizzy headaches, and could not sleep at night. In this way I suffered for ten years, until I read about Doan's Kidney Pills. I purchased two boxes, and as they helped me, I sent for two more; they put me on my feet, and I have been able to work ever since."

Doan's Kidney Pills are 50 cents a box, or 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

LISTERINE

*Use it every day*

WASH the mouth thoroughly after brushing the teeth. Use a SAFE mouth-wash—Listerine—an agreeable antiseptic solution of high merit.

Listerine cleanses and purifies, and when used consistently keeps the mouth and teeth in healthy condition. It may be freely used with most beneficial results.

*All Druggists Sell Listerine.*

Lambert Pharmacal Co., Toronto, Ont.

## TOLL OF LABOR FOR MONTH OF MARCH FIFTY-FIVE DEATHS

Industrial accidents occurring to 402 workpeople in Canada during the month of March, 1914, were recorded by the Department of Labor. Of these 55 were fatal and 347 resulted in serious injuries. In February there were 63 fatal and 290 non-fatal accidents, a total of 353; and in March, 1913, there were 93 fatal and 387 non-fatal, a total of 480. Therefore, the number of fatal accidents recorded in March last were eight less than February and 38 less than in March, 1913. The number of non-fatal accidents recorded in March were 57 more than in February, but 40 less than in March, 1913.

The following is a statement of accidents during the month of March, 1914, by industries and grops of trades:

| Trade or Industry | Killed | Injur'd | Tl. |
|---|---|---|---|
| Agriculture | 5 | 8 | 13 |
| Fishing and Hunting | 1 | 1 | 2 |
| Lumbering | 2 | 5 | 7 |
| Mining | 14 | 33 | 47 |
| Railway construction | — | 2 | 2 |
| Building Trades | 1 | 36 | 37 |
| Metal Trades | 6 | 74 | 80 |
| Woodworking Trades | — | 13 | 13 |
| Printing and Allied Trades | — | 2 | 2 |
| Clothing | — | — | — |
| Textiles | 1 | 5 | 6 |
| Food and Tobacco Preparation | 1 | 7 | 8 |
| Leather | — | 1 | 1 |
| Transportation— | | | |
| Steam Railway Service | 5 | 84 | 89 |
| Electric Railway Service | — | 7 | 7 |
| Navigation | 2 | 10 | 12 |
| Miscellaneous | 4 | 12 | 16 |
| Public Employees | 1 | 11 | 12 |
| Miscellaneous Skilled Trades | 5 | 22 | 27 |
| Unskilled labor | 7 | 14 | 21 |
| Total | 55 | 347 | 402 |

*To Printers and Publishers:*

We beg to announce that we have started in the business of typesetting for the trade only. We have one of the best linotype plants in the west, and can guarantee a production of 300,000 ems per day; customers can rely upon a prompt delivery of all copy sent in. We quote you the following scale of prices for solid or leaded matter read and corrected:

6 point ..... 45c per 1000 ems.
7 point ..... 50c per 1000 ems.
10 point ..... 55c per 1000 ems.
12 point ..... 60c per 1000 ems.

For 250,000 ems and over we cut 10c per 1000 off the above prices.

Customers are charged 12c per pound for metal, which amount will be refunded when the metal is returned, less 1c per pound for waste and deterioration.

# ITALIAN VOLCANOS SHOWING SIGNS OF FURTHER ERUPTION

Lava Plainly Seen Coming From Historic Crater of Vesuvius; Blue Cloud Above

## HUNGARIAN ENGINEER EXPLORES STROMBOLI

Clothed in Asbestos He Is Lowered Down to Depth of 700 Feet.

Naples, May 4.—During the last few days both Etne and Vesuvius have been in a state of activity. Vesuvius is giving vent to explosions at intervals of half an hour, accompanied by a dull, rumbling noise like an explosion in a tunnel. At times the mass of lava inside has risen so high as to be plainly seen from the summit. A blue cloud makes the smoke cap much larger than usual. The last movement of the kind began in 1875 but there was no eruption until 1906.

A Hungarian engineer, Arpad Kiener, clothed himself in a suit of asbestos with metal helmet and lowered himself into the crater of Stromboli. He reached a depth of 700 feet, but at that point his oxygen apparatus ceased to work. He immediately pressed an electric button and his comrades drew him up. He was in a pitiable condition, nearly suffocated by gas and severely injured by stones and lava, which rained upon him.

# ACTIVITY NOT ALL ON PART OF ANTIS IN ULSTER ITSELF

Nationalists Carrying War Into Opponent's Camp and Continually Provoking Them

## SIX MONTHS CHILD TAKEN FROM MOTHER

Only One Woman in Milford Dares Give Ulster Drill Instructor Board.

Londonderry, May 4.—A baby of six months torn from its mother's arms is one of many lamentable incidents in the Ulster situation. In Milford, Donegal, where feeling runs dangerously high, stones have been thrown through the windows of the residence of John Osborne, commanding the Ulster battalion. One landed in the children's room, but fortunately no one was injured. Such is the peril, however, that the Osbornes have sent their little ones to England, including a child of five, a child of three, and a baby.

A new outrage against Lord Leitrim has just occurred at Mulroy, where enemies burned nine acres of plantation and pheasant covert. Lord Leitrim has entered claim for £200 against the county.

The hatred against this once popular landlord has been engendered by his activity in the Ulster movement of which the Donegal nationalists consider him the head. The real fact is, however, that two Belfast business men, whose names are never mentioned, are its brains and conceived the latest coup, one of them even taking part disguised as a boats engineer, and he was not identified even by his own friends. A sequel to the Larne affair has been enacted at the residence of Mrs. Berid of Ballynacool, where 300 nationalists gathered at night, suspecting that arms were hidden there, while a hundred Ulster men who were called out protected the place. As a matter of fact, there were no arms there at the time.

The stoning of protestants in Donegal continues with alarming frequency. Mr. Osborne's car was stoned at two points between Letterkenny and Milford and Derried. Also, the head constable at Rathmullan was thrown from his wheel by stones which had been placed across the road, some of them being so big that it took two men to lift them. They had been intended for an Ulster auto, and placed just over the brow of a hill where the lamps of the car would not reveal them.

In another instance volunteers were driving an auto between Kilnscreen and Milford, when they were pelted with turf and stones by a woman who left a group of other people for the purpose.

An idea of the petty provocations indulged in is given by the fact that only one woman in Milford has dared to give board to the Ulster drill instructor, Armstrong, and she can get no one to do her washing in consequence, nor will the butcher sell her meat. An instance was seen when driving near Milford with Armstrong. A pail of water had been placed in the middle of the road in the hope that the horse would knock it over and give an excuse for trouble.

The Irish nationalist volunteers ran an excursion to Buncrana yesterday, but the priests, who cannot be said to be enthusiastic over enrollment, discouraged attendance.

### Drowned While Fishing.

New Westminster, May 4—Two Port Hammond men, John Thompson and David Auvaxat, were drowned yesterday afternoon in a small lake six miles from here, and up to the present time the bodies have not been found. The men had gone out fishing and it is surmised that the boat upset, as it was found bottom up.

## Eastern Art Portrayed in These Newly Arrived Oriental Rugs

Each mystic symbol, each quaint design and every color effect has some historic, religious or traditional significance, perpetuated in these products of the weaver's art just as we perpetuate stories of the past by word, painting or sculpture. Our Oriental Rug section contains a collection of these gorgeous rugs, just recently arrived from Persia and Turkey. A few are here briefly described.

**Hutchless Boukhara**—One of the finest specimens of its kind. A true character design in peculiar reddish colors. A more beautiful rug for hall, library or den could hardly be obtained. Size 4.2x5.2. Price $65.00

**Anatolians**—Always so popular, are obtainable chiefly with medallion centres. One particularly handsome rug has grey blue centre and rose ground, with the centre colors again carried out in the conventional borders. Size 8'11x12'.. $185.00

**Kirman Rugs**—A beautiful specimen in the characteristic vine-like design, and close even pile. The combinations of shades showing Rose, Ivory, Nile Green and Blueish Grey. Size 8'10"x12'2'. $290

**Small Kirmanshah Rugs,** in fine feathery designs, in the typical soft, eastern colorings of Rose, Ivory, Green and Blue. Size 4'3"x6'2" ..... $75.00

**Kazac Rugs** are obtainable in great variety, strong, severe designs and deep rich colorings of Dark Blue, Rose, Green, Red, Camel and Delph Blue, average size 3'4" 5x6," Price ..... $35.00

**"Meshed Rugs"**—One of the Gems of the collection—has a medallion in delph and old blue, harmoniously blended with rich shades of copper, and the same beautiful colors carried out in conventionalized floral effect in the border. Size 8'x10' 11" ..... $315.00

## A Collection of Charming Millinery at $7

Fresh from our workroom we shall place on display a collection of stunning new hats that were intended to sell for $10, $12, and $15. ## FATHER VAUGHN USES SLANG TO DESCRIBE POWER OF CHURCH

London, May 4—Father Bernard Vaughn, in an address to the Aldwych club on Saturday declared that religion was the only thing really worth advertising.

Nevertheless, he admitted, other things needed advertisement—even footwear, clothes or soap.

He belonged, he said to the oldest and biggest advertising firm on the planet—the Roman Catholic church.

She believed that she had wares that defied competition and she put them in her shop windows, proclaiming for all she was worth to come even you without money, and buy.

"Why had the music, the ritual and preaching in the church if it were not to advertise the supplies they possessed for the demands of the human soul? In view of these being so splendid they were justified, in making use of advertising.

"The Roman Catholic church," he concluded, "to use the phraseology of the United States, had been "on the Job" two thousand years and had "delivered the goods," all the time."

### Medal for Canadian

Halifax, N.S., May 4.—At the board of trade rooms today, Lieutenant-governor McGregor presented to Captain Travis, of the Canadian government steamer Lady Laurier, a gold watch and chain on behalf of the Royal Mail Steam Packet company in recognition of the services rendered at the time of the wreck of the Steamer Cobequid.

Lincolnshire, Eng., yearly devotes over 82,000 acres of land to potato growing.

## MANY FAMILY QUARRELS AND MUCH HUMOR, THE RESULT ULSTER ROW

London, May 4.—The dispute over Ulster in regard to the home rule has produced many family quarrels and much division of opinion between men and women, formerly good friends, but the situation is not without its humors, because there are combinations of friendship produced by the Irish policy of government which are every bit as strange as some of the enmity which it has engendered among these humorous touches.

None is more humorous than the friendship and co-operation of Henry Carson, the son of Sir Edward Carson and Lt. G. R. Howard, the nephew of John Redmond. Although the father of one and the uncle of the other leading rival political armies the young men are as close as Damon and Pythias, and nothing seems able to alter their amity and determination to ignore altogether the feuds of the leaders of their respective families.

They have just collaborated in a play, entitled "An Irishman's Home," in which they criticise all parties and all speak freely as to the senselessness of dividing a country by political passions. It will shortly be produced and will undoubtedly create a big sensation.

### Lady Alfred Paget Dead.

London, May 4.—The death occurred yesterday of Lady Alfred Paget, widow of the late General Lord Alfred Henry Paget. She was the mother of Lieut.-General Sir Arthur Paget, commander of the British forces in Ireland. Another son is Almeric Paget, a member of parliament, whose wife is Paulina Whitney, daughter of the late W. C. Whitney, former secretary of the U. S. navy.

## THE GAY WORLD.

This is "May Queen" night on the south side, when the Strathcona Choral Society give their performance of this charming pastoral by Sir Sterndale Bennett. A chorus and orchestra of 75 is promised. The entertainment will be given at the Metropolitan Methodist church at 8.15.

* * *

Dr. and Mrs. Green of this city are sailing from Montreal on May 16, to spend a year in travel in Europe. Dr. Green will take post graduate course at Vienna. Mrs. Green is a sister of Mrs. H. M. Whiddington of Lethbridge.

* * *

The friends of Mrs. J. W. Heffernan will be pleased to learn that after a serious operation at the general hospital she has been able to return to her home and is progressing so rapidly that she will soon be able to be about.

* * *

J. H. Woods of Athabasca is a business visitor in the city for a few days.

* * *

Mrs. E. E. Cogswell was a Didsbury visitor last week, the guest of her niece, Mrs. H. S. Patterson.

* * *

Mrs. J. A. Robinson and little son of Viking, were Edmonton visitors last week.

* * *

Mr. A. Long and daughter, Bernice, of Viking, spent a couple of days in the city last week.

* * *

The ladies' aid society of Erskine Presbyterian church will hold a tea at the home of Mrs. Robert Bell, 134 York street, on Tuesday afternoon, May 5, from three to six o'clock. All women are cordially invited.

* * *

On Thursday, May 7, the regular monthly business meeting of the society will be held in the church, corner of Willow avenue and Carey street, at three o'clock. A hearty invitation is extended to members and friends of the society to be present.

* * *

Hugh B. Bowman of Edmonton was the guest of S. N. Dimoline of the Northern Transportation company for a few days this week, participating in the joys of pioneer life in the north.—Athabasca Times.

* * *

Mrs. Crafts was hostess Friday at a bright little tea in honor of her house guest, Miss Crafts.

* * *

Mrs. Ellwood Moore and Mrs. N. Elliott of Edmonton were among the western Canadians who registered at the High Commissioner's office recently in London.

* * *

The lecture in the MacKay avenue school to be given under the auspices of the Women's auxiliary of the Industrial association will be at 7.30 p.m. in the assembly hall of the building instead of four o'clock as heretofore mentioned. Mr. McIntosh of the Flower Shop will deliver the address and will illustrate same with slides.

It is earnestly hoped that the parents in MacKay avenue district will make it a point to be present, as well as all of the children interested in gardening. Arrangements are being made to distribute the packages of seeds which Mr. Potter has so kindly given to the cause, and the children will do well to be making up their minds what kinds of plants or flowers they wish to grow this season.

This is the first of the series of lecture to be given on the subject of beautifying the city and gardening, and much of the success of the whole scheme depends entirely on the interest exhibited by the residents of the neighborhoods of the nine districts where lectures will be given during the week.

It is also suggested that as MacKay avenue district is in the center of the city, that much of the enthusiasm displayed there will be radiated to outlying districts, or vice versa as the case may be, and if a rousing big meeting is reported from MacKay avenue, the workers in all districts will be encouraged and helped.

Miss Marian Seymour and other local talent will provide some vocal solos and recitations.

* * *

Miss Holdsworth was hostess at a delightful girls' tea on Saturday afternoon at the home of Mrs. Fullerton, Villa avenue, in compliment to Miss Agnes Robertson, whose marriage takes place on Wednesday evening of this week. In the drawing room bright with spicy pink and white carnations Mrs. Fullerton assisted in entertaining and welcoming the guests wearing a pale green silk taffeta with girdle and touches of cerise.

Miss Holdworth was wearing a dainty frock of pale pink crepe de chine with girdle of dull blue.

The guests of honor, Miss Robertson was wearing pale blue broadcloth with silver lace trimmings.

The guests included Mrs. James Ross, Mrs. Walter Gilpin, Mrs. J. M. McDonald, Mrs. Eakins, Miss Jean McCallum, Miss Margaret Fraser, Miss Carrie Thomas, Miss Truenan, Miss Wilson, Miss Fullerton, Miss Berenice Ducles, Miss Winterspill and Miss Ruby Beals. At the tea hour the guests sat down to small tables in the dining daintily decorated with pink roses.

* * *

Born—In San Francisco on April 28, a daughter was born to Mr. and Mrs. William J. Tenny, who have been in California for the past two months. Mr. and Mrs Tenny will return soon

### EQUAL SUFFRAGE SERMON

At the Unitarian church yesterday, Rev C. F. Potter gave what was practically an equal suffrage sermon on the subject. "The daughters of Zelophehed, an early study in women's rights." These old testament heroines successfully appealed to Moses to frame a law giving them inheritance rights in their father's property—there being no brother to receive the inheritance. The inferiority of women was taken for granted with but few exceptions in the oriental world. The tenth commandment regarded women as property, and even the Christian Jew, Paul, held reactionary views on the status of women. But now the civilization of a country is coming to be gauged by the legal rights it permits to women.

"Whether we want it or not", continued the speaker, "whether we think it right or not, the complete emancipation of women is coming, and we may as well prepare for it. If they want to say how their children shall be educated, if they want to vote against the saloons, what can stop them? It certainly cannot be accomplished by a sneer, which is the last argument of a beaten debater, and its own admission of defeat."

### TREES.

In the Garden of Eden, planted by God,
There were goodly trees in the spring-ing sod—

Trees of beauty and height and grace,
To stand in splendor before His face:

Apple and hickory, ash and pear,
Oak and beech and the tulip rare,

The trembling aspen, the noble pine,
The sweeping elm by the river line;

Trees for the birds to build and sing,
And the lilac tree for a joy in spring;

Trees to turn at the frosty call
And carpet the ground for their Lord's footfall;

Trees for fruitage and fire and shade,
Trees for the cunning builders' trade;

Wood for the bow, the spear, and the flail,
The keel and the mast of the daring sail—

He made them of every grain and girth
For the use of man in the Garden of Earth.

Then lest the soul should not lift her eyes
From the gift to the Giver of Paradise,

On the crown of a hill, for all to see,
God planted a scarlet maple tree.

—Bliss Carman.

## Theaters and Picture Shows

### EXCELLENT BILL AT THE EMPIRE TO SUIT ALL POSSIBLE TASTE

Valeska Suratt who was expected to headline the Orpheum bill at the Empire theatre this week will not make her appearance here owing to the fact that her mother is dying in Indiana and her presence there is needed.

The rest of the excellent bill is composed of Irene Timmons, in "New Stuff," a crime sketch; James H. Cullen, "The Man From the West," in a decidedly original monologue; Walter de Leon and "Muggins" Davies, in song, dance and patter; Aileen Stanley, in topical songs; Stelling and Revell, English comdey acrobats, and Valveno and La Mora, European novelty tumblers.

Irene Timmons, one of the cleverest of the younger actresses, is to appear in the thrilling one-act sketch, "New Stuff." It is by Robert David, author of "The Welcher," and is sufficiently dramatic to grip the interest throughout. She is supported by a competent cast.

Edmontonians will remember James H. Cullen, the clever monologist, who is known as "The Man From the West," and who is making his fifteenth tour of the circuit. His material is readily new this season and as of old is very entertaining.

Recently stars of "The Campus," Walter De Lean and "Muggins" Davies, appear in a series of bright song hits from it, punctuating their performance by clever dancing and amusing comedy. They, are gifted attractive young people, who have made good over the long route they have covered.

Stelling and Revellar are two English performers who have become favorites in the London halls for their clever combination of expert acrobatics and really clever comedy. They understand the art of not overdoing the humorous part of their turn.

Very handsome and very charming, if one may judge from her portraits, is Aileen Stanley, generally known as "The Girl With The Personality." She is a character singer, and manages to infuse into her work a great deal of the elusive thing called magnetism which, backed by a good repertoire, carries her far on the road of success.

Closing this part of the program are Valverno and De Mora, who come from the foreign music halls with a splendid record for skill and novel ideas.

### TABLOID PRODUCTION OF "THE MIKADO" IS ON AT THE PANTAGES

The fresh, young and pleasing voices of the Pollards, that world famous juvenile organization will be heard all this week at Pantages in a tabloid production of "The Mikado." For the first time in the history of music Gilbert and Sullivan's works have been altered to suit the requirements of vaudeville and it is interesting to note that none other than the Pollards' who since their organization some 20 years ago have played practically the entire output of the English composers, should have been the first ones to tackle the venture.

In the shortening of the opera none of the musical numbers have been sacrificed and but very few of the comedy situations which makes the opera for vaudeville a most interesting attraction. The youngsters will all be seen in roles suited to their various abilities while the usual standard of the Pollards in regard to mounting and wardrobes has been maintained in the production.

Lovers of good music will be delighted by the excellent rendition of the better known classical compositions by Miss Alla Zandoff, a concert violinist recently discovered by Mrs. Alexander Pantages and induced to enter the vaudeville world.

The Siberian song bird Leona Guerney, who is the possessor of a wonderful two-toned voice, has chosen a list of standard vocal compositions which never fail to please.

Charles Kenna, posing as a patent medicine seller, will deliver a humorous line of talk anent the wily ways of his kind, while Kalinowski brothers, a team of European novelty gymnasts will complete the bill.

### TWO FAVORITES IN PHOTO-PLAY WORLD IN MONARCH FILM

Today only the Monarch will offer "Yacui's Revenge," a two-part sensational Bison feature, and tomorrow only "The Mysterious Leopard Lady," featuring the two favorites, Grace Cunard and Francis Ford.

The management of the Monarch has arranged for a complete orchestra to play every day, afternoon and evening, which will add to the entertainment of the Monarch patrons. The orchestra is composed of members of the local musicians union.

"The Mysterious Leopard Lady" at the Monarch theater, promises to prove a success, even as did the first of the "My Lady Raffles" series, entitled "The Twins Double," which was shown a short time ago. As in the former production Miss Grace Cunard and Francis Ford are seen in the two leading roles. The scenario was written by Miss Cunard, and for that reason she can be depended upon to give a more appreciative understanding of the role of the lady of intrigue who wears the coat of leopard skins.

**Suffragettes use Torch**

Belfast, Ireland, May 4.—The Arena squad of the militant suffragette started its campaign in Ulster today by burning the new grand stand of the Cave Hill Tennis club.

### LAURENCE IRVING ENDS VISIT IN PRODUCTION OF "UNWRITTEN LAW"

Laurence Irving and his distinguished company concluded their visit on Saturday night, playing "The Unwritten Law," before a full house. At the close of the play, Mr. Irving made a short speech in which he expressed his thanks for the reception that had been given to his company in Edmonton. He also spoke of the work of the management, orchestra and stage hands as being well up to the standard of the east and Great Britain.

The audience showed great appreciation of the principal actors in "The Unwritten Law." The play deals with conditions in Russia and is a dramatization from the book of Destolewski, himself a political exile. The love interest in the play is subservient to the play of ideas. The young student, expresses his belief that murder is an essential element in human progress by the murder of the oppressor Gromoff; the ferocity of the official tyrant is shown in the person of Bezak; religious fanaticism in Sonia, whose worship of images is brought out in clear contrast to the atheism of the student, Rodion Raskolnikoff.

Mr. Irving gave a wonderful interpretation of the part of Raskolnikoff, his acting showing intens feeling. Henry Croker was a great success as Bezak, the examining magistrate. Mabel Hackney gave a very true delineation of the character of Sonia, the fanatical girl worshipper.

"The Lily" was played at the matinee in the afternoon before a rather small house. The plot has nothing new to offer, but it was saved from insipidity by the clever acting of Mr. Irving and his company. It is a story of the home life of a French count, where the schemes of the father for the benefit of his children go astray, one of the daughters achieving an intrigue with a married man, in consequence of which the son's marriage is broken off and the family honor is clouded. Mr. Irving gave an artistic interpretating of the role of count, with the air of an old noble while Miss Hackney, as the elder sister who retrieves the situation somewhat after the younger sister's downfall, was excellent.

### "SALOMY JANE" WITH SEVERAL INNOVATIONS AT LYCEUM THEATER

With the presentation of "Salomy Jane" at the Lyceum theater this week starting with a performance tonight the management of that favorite playhouse announces several innovations of a strictly up-to-date character.

For instance, where dollars have been spent heretofore on "productions" hundreds of dollars will be expended in the future. To conform with this policy, Manager Dummond has secured the most elaborate settings obtainable for the first act. The redwood forest is the most realistic scene that has been seen on the Lyceum stage and neither money nor time have been spared to make it an extraordinary effect with real redwood, cedar and other trees.

Mr. Harold Holland and Miss Florence Darling, two exceptionally capable Thespians will make their initial bows to Lyceum audiences tonight, and both are fully capable of maintaining the enviable reputations that have been heralded here during the last three or four weeks.

On Wednesday night Stage Director Holland will open one of his best bags of pleasing inncvations when he inaugurates a "Beauty" night. Various prizes will be awarded for the best looking woman in the audience Tuesday night. The lucky woman will not be subjected to any embarrassment but will be designated by the judges, three well known local men, merely by the number and section of the theater in which the winner is seated. The prizes will be orders on local department stores and the management assures its patrons that the prizes will be well worth while, which should greatly enhance the feminine patronage of the Lyceum.

### ARTISTIC GEMS OF MOVING PICTURES AT BIJOU THEATER

The Bijou picture theater again offers to its patrons one of the artistic gems of the moving picture world. Adaptations have been made from various world popular and loved poems and songs, and the same theme that has helped made them so dear to the hearts of the people offers to the picture producers a like opportunity. They usually touch upon subjects of which there are none more effective and appealing.

Lorimer Johnstone one of the most successful and capable of movie producer-actors has presented an adaptation of the famous German folk song "The Traumerei" and it will be exhibited at the Bijou in a three part film "The Call of the Traumerei". A number of the brilliant stars of the picture world still interprct the stellar roles, the principals being Sydney Ayres and Miss Vivian Rich.

Director Johnstone has taken much pains with the production and has expressed himself to the effect that it is one of his best pieces of work. The sittings are said to be superb—the artistic selection of the beautiful wooded and rural scenes showing the meeting of the artist and the country maiden, the ball-room scene in Paris and the cabaret scene in one of the big cafes of New York city, are particularly noteworthy.

The story centers about a love affair between an artist and a country girl, but whose love is forgotten soon after. But after living the fast worldly life in the large cities and after finding that his talents have lost their brilliancy of former days, he returns to his country home where his country sweetheart waits for him at the old trysting place—he had followed the call of the Traumerei.

### "THE ROYAL SLAVE," IN KATHLYN'S ADVENTURES, AT EMPRESS THEATER

The fourth picture installment of "The Adventures of Kathlyn" comes to the pretty Empress Theater for today and tomorrow. Those who have followed this series will see in this chapter an even more interesting installment than before. This chapter is entitled "The Royal Slave" and pictures the further and more exciting experiences of Kathyin after she has fortunately and miraculously escaped from the savage sentinels in the Temple of the Lion, as shown in the previous picture.

In this installment she encounters leopards, lions and tigers, and then unwittingly falls into the hands of a band of Arabian slave traders. The caste-mark of the slave is imprinted upon her forehead, and as the unfortunate chattel of the intolerant and repulsive Indian Prince, Umballah, she is obliged to submit to further of his deliberate schemes in forcing his suit on her. Her defiance of the hateful villian is at times heroic.

To make her position more unfortunate and pathetic she meets her father, who had been captured and is incarcerated in the same prison and he is told by the malignant Umballah that his daughter is his slave. Just at this juncture Bruce appears on the scene and new and more exciting events arise.

The great throngs that pack the spacious Empress to follow these pictures have indisputably proved that no more successful and pleasing set of pictures have ever been shown to the public of Edmonton.

### THEATER, ART GALLERY, AND MUSEUM ON BOARD CUNARDER AQUITANIA

The ocean theater has come at last. What will probably be known in ocean theatrical circles as the "Cunard first night" will be a memorable event on the maiden voyage of the Aquitania in May.

A stage is being erected in the first-class lounge, and it will be so constructed as to be suitable not only for concerts but for dramatic pieces of the light drawing-room or curtain-raiser type. Scenery will be provided, and there will be a green room and special dressing rooms for the artistes.

Two other surprises on this Cunarder are an art gallery and what may fairly be called a museum. The official descriptions which the Cunard Company is about to distribute to the world state that the ocean traveler may stroll through the art or Long Gallery as it will be termed, and study at his leisure its beautiful pictures and objects of art. These picture-galleries, historic castles and other buildings in the United Kingdom and Europe have opened their doors, and their treasures have yielded inspiration for the adornment of this mighty ship." A "Daily News" representative was assured yesterday by a Cunard official who had just returned from an exploration of the Aquitania at Clydebank that this description is no exaggeration. The Long Gallery is the particular gem of the vessel. Many of the features are copied from the famous Long Gallery at Knole, Lord Sackville's seat at Sevenoaks, Kent, and there is a touch of Christopher Wren and the Kensington Orangery about the whole construction.

For the first time an Atlantic liner is to have precious exhibits of china, lacework old prints of historic interest and all manner of objets d'art which will adorn the Long gallery. Part of the history of English shipping will be writ large on the walls. Particularly appropriate will be the old prints of English seaports in the early part of the eighteenth century, such as Liverpool, the birthplace of transatlantic steam navigation; Deptford, where the "goodlie shippes" of the sixteenth and seventeenth centuries were built; Greenwich, with its Royal Hospital for Seamen; Plymouth, one of whose indissoluble links with the new world is the Mayflower; Bristol, the home of Sebastian Cabot and of William Penn's father; Harwich, which witnessed the stirring scenes of the Dutch wars.

The more personal side of eighteenth century history will be represented by the admirable series of engraved portraits, such as that of Prince William Henry, third son of George III, who visited New York in 1781-82; that of Nelson, and those of Handel, Samuel Foote, David Garrick, John Kemble, and Edmund Kean.

There will be a quaint old barber's shop on board reminiscent of Beau Nash and the gay Georgian days of Puffs and powders. The outside of the shop will be an exact model of an old English hairdresser's but this pleasing illusion will be shattered when the traveler enters and sees all the modern paraphernalia of the hairdresser's art.

Seattle, Wash., will vote this summeo on a new charter providing for a city manager.

## BILL HURLEY'S QUAKERS ARRIVE READY FOR GAME WITH ESKIMOS

### Saskatoon Team Looks Like One of Best in League—Pitcher Northrup Last Year of Moose Jaw With Team—Pitcher Cadreau Has Good Record in Northwestern League, Walter Ford No Longer With the Team.

Bill Hurley and his Quakers arrived in the city last night from Red Deer, where they have been practicing the last couple of days. The boys are stopping at the Pendennis. Bill has gathered a real ball team together and is looking for the best season of his career in the W. C. L. Seven of last year's players are on the team, namely: Beer, Collins, Chick, Harper Walters, Mills, and himself. He also has Tug Wilson who was with Calgary and Medicine Hat for a couple of seasons. Pitcher Northrup who was the big noise with Moose Jaw last year is with the Quakers and should make things hum. He was secured from Vancouver, another pitcher, Cadreau, from the Northwestern league is claimed to be the best twirler the W. C. L. has seen and last year won 11 straight games in that league.

Catchers Jimmie Flanagan and Walters were last year with Calgary, and third baseman Grover was secured from Vancouver. Walter Ford will not be with the team this year, having made tracks for Alaska along with other ball players at the coast. The batting order of the Quakers will be as follows:

Mills, right field; Hurley, center field; Wilson, left field; Chick, second base; Hurley, first base; Grever, third base; Harper, shortstop; Walters and Flanagan, catchers; Cadreau, Northrup, Beer, Kallo and Collins, pitchers.

## BERT DUNN CLAIMS SOME TEAM FOR THE HAT THIS SEASON

Medicine Hat, May 4.—With what Manager Dunn claims to be the best team which has ever represented a club in the Western Canada league, Medicine Hat will start in the Western Canada league race today. Dunn has a strong team gathered from the California winter league after spending all winter watching the players at work and picking out those whom he knew to be the men who would make good. He is to be opposed by Chas. Stis with the Red Sox, who arrived here last night. Stis' team is the dark horse of the league, picked from a section of the country hitherto foreign to the Western Canada league; his team is made up of players which will prove a puzzler to the wise acres of the league until they see them in action. The city council has granted a part holiday for the game, and a record crowd is expected.

### A Wonderful Athlete.

A. S. N. Jackson, the Oxford Blue, hero of the 1,500-metre race at Stockholm, was able to deliver the goods again in the intercollegiate relay race at Franklin Field, Philadelphia. The Oxford man was only able to finish in front of McCurdey, the Pennsylvania relay man, at the end of a terrible finish, but it was enough to win a famous race for his university. The noted Blue is a wonderful athlete. When the race demands it, he is always ready to run himself out, and both at Stockholm and again on Saturday he has outgeneraled his American competitors. New York papers today claim the U.S. relay team made a wonderful showing against a team picked from the world, because the Oxford men represent all quarters of the globe. They do but are also bona fide representatives of the famous English university. Such an excuse coming from the American press is a joke; a look over the last U.S. Olympic team would show men from every corner of the world, and at the present time athletic authorities in the U.S. are straining a point to keep a famous "Northman" in their possession and offering special inducements to a Canadian who is prominent just at this moment. When it comes to picking teams we know just where to hand the championship.

### B.C. Lacrosse Schedule.

May 25—Vancouver, at Westminster.
May 30—Westminster at Vancouver.
June 6—Vancouver at Westminster.
June 13—Vancouver vs. Westminster at Victoria.
June 20—Westminster at Vancouver.
July 1—Westminster at Vancouver.
July 11—Vancouver at Westminster.
July 18—Westminster at Vancouver.
July 25—Vancouver at Westminster.
Aug. 1—Westminster at Vancouver.
Aug. 8—Vancouver vs. Westminster at Victoria.
Aug. 15—Westminster at Vancouver.
Aug. 22—Vancouver at Westminster.
Sept. 1—Westminster at Vancouver.

## REGINA RED SOX PLAY MAD HATTERS FIRST GAME TODAY

Regina, May 4.—The Red Sox left yesterday for Medicine Hat where they open with the Mad Hatters today. Botterell will be Stis' choice on the firing line. The Red Hosed Tribe is in good shape and hopes to make a good start, but as the team is almost entirely new to western Canada it is difficult to size it up until it has been seen in action a few times. Regina has never yet had a team to cheer for and if any city deserved one it is this same Regina because the fans have ever been loyal and the men behind the club have always been liberal with their money.

## GUN CLUB SCORES

The greater Edmonton Gun club held a splendid shoot at the traps on Saturday. There was a good turnout, and John Pillard, president of the club was high score with 46 out of 50. The usual Wednesday shoot will be held at 6:30 and the inter-club shoot is slated for Friday, May 8th, at 1:30 p.m. Any local clubs are entitled to enter this shoot as many members as they desire, the ten highest scores being taken to decide the championship. Saturday's scores follow:

| | Shot at | Broke |
|---|---|---|
| John Pollard | 50 | 46 |
| D. McAfee | 50 | 43 |
| Capt. Robinson | 50 | 42 |
| A. E. McBain | 50 | 41 |
| N. C. Wilson | 50 | 38 |
| Dr. Hope | 50 | 34 |
| W. McAfee | 50 | 31 |
| F. E. Bowen | 50 | 43 |
| G. Speers | 50 | 39 |
| M. B. West | 50 | 24 |
| R. J. McAfee | 25 | 12 |
| F. Pollard | 25 | 19 |
| E. McNeill | 50 | 33 |
| Dr. Hope | 50 | 28 |
| S. Walker | 50 | 22 |
| A. F. Dreger | 50 | 8 |
| A. Garbo | 25 | 17 |
| J. Oliver | 25 | 9 |
| R. L. Wilson | 50 | 38 |
| J. M. McAfee | 25 | 19 |

**Calder Gun Club**

Some very good scores despite the high wind, were made on Saturday at the regular meeting of the Calder Gun club. The next regular shoot will be held on Saturday, May 9th. Saturday's scores follow:

| | S.A. | Br. | Pc. |
|---|---|---|---|
| M. Senby | 50 | 42 | 84 |
| Case | 50 | 40 | 80 |
| Dr. Rooney | 50 | 36 | 72 |
| E. Senby | 50 | 36 | 72 |
| Foulstone | 25 | 18 | 72 |
| Davis | 50 | 35 | 70 |
| McLean | 50 | 34 | 68 |
| Day | 25 | 13 | 52 |
| Hartle | 25 | 12 | 48 |
| Thorne | 50 | 24 | 48 |
| Thompson | 25 | 11 | 44 |
| Williams | 25 | 9 | 36 |
| Allen | 25 | 8 | 32 |

## SNOW FALLING AT CALGARY; BRONKS VS. MOOSE JAW TODAY

Calgary, May 4.—With the weather threatening and a light snow falling, the prospects of the Western Canada league getting under way in Calgary were not very bright at midnight. But as a strong wind was blowing the local club officials were not altogether discouraged. The prospects are for the best baseball seen in the history of the game in this city.

If a game is played today it will probably be a battle between left handers. Concannon of Moose Jaw will probably oppose Kesselring of Calgary. It is quite possible, however, that Frink will be substituted for Kesselring at the last minute.

The batting order for teams will be as follows:

Moose Jaw—Lorat, 2b; Senton, lf; Whisman, cf; Jarratt, rf; Day, 2b; Price, 1b; Augustus, ss; Kelly, c; Concannon, p.

Calgary—Piper, cf; Reynolds, lf; Croll, ss; Thompson, rf; Ryan, c; Devereaux, 3b; Strelb, 1b; Vivian, 2b; Kesselring, Frink or Gage, p.

Chile will raise $10,219,650 this year for improvements on state railways and $22,921,215 for betterments will be raised in the next five years.

MANAGER NORDYKE

Nordyke's "Rockers" will be seen in action this afternoon against the Saskatoon Quakers. The game is called for 4 o'clock, following the big auto-parade at three o'clock. Nordyke has been one of the most successful baseball managers in the country and is bound to put the Eskimos at the top of the league where they belong. The opening battery for the Eskimos will likely be Russell, pitcher, and Lemieux, catcher.

## CRICKETERS WERE HAMPERED BY THE RAIN ON SATURDAY

The North Edmonton and Edmonton cricket teams opened the league fixtures in a game at the City Park Grounds on Saturday. Both teams showed up in full strength and a very exciting game would have been the issue but for rain intervening.

North Edmonton batted first against the bowling of Morse and Hardisty. The latter dismissed the first three batsmen with only a total of 17 runs on the board. Merrett, Murdock, Toin and Woods, the next batsmen, however, all made good scores and put the North Edmonton team on much better position and the innings ended with the useful score of 106 to their credit. The Edmonton team opened their innings with Morse and Bertenshaw, the first named being very lucky, three catches being missed from him off Jones. The latter, however, had the satisfaction of clean bowling him a little latter on.

Rain came on at this time and lasted for about an hour, putting an end to a chance of finishing the game. After the rain had cleared the teams made another start, Hardisty endeavoring to reach the North Edmonton score by making some brilliant hits to the boundary. The game ended in a draw, the scores being as follows:

**North Edmonton C.C.**

| | |
|---|---|
| E. Slocock, c Woodman, b Hardisty | 7 |
| W. Williams, b Hardisty | 1 |
| F. W. Prendegast, b Hardisty | 0 |
| C. S. Merrett, c Gamble, b Hardisty | 22 |
| A. F. Murdock, c Gamble, b Hardisty | 11 |
| R. G. Thormlinson, c Bertenshaw, b Hardisty | 19 |
| E. F. Woods, b Hardisty | 16 |
| F. S. Turner, not out | 4 |
| C. Reeves, b Voyse | 0 |
| J. E. Jones, b Voyse | 8 |
| J. Bell, b Hardisty | 11 |
| Extras | 12 |
| Total | 106 |

**Edmonton C.C.**

| | |
|---|---|
| G. P. Bertenshaw, run out | 3 |
| E. H. D. Morse, b Jones | 30 |
| G. R. N. Anderson, b Murdock | 4 |
| P. Hardisty, not out | 24 |
| A. H. Petch, not out | 6 |
| Extras | 13 |
| Total (for 3 wkts.) | 80 |

### Pat Connolly Matched

Vancouver, May 4th.—Pat Connolly, claimant of the world's heavyweight title, has been matched for a return bout with Americus. They are scheduled to meet again in this city on June 11.

## OLD SMOKEY DID BETTER JUMP THAN AT TORONTO SHOW

Toronto, May 4.—With a bumper attendance the horse show for 1914 came to a close at 11:30 o'clock Saturday night, with the awarding of the prizes for the final class of the high jump. The result was most disappointing. The bars were only raised as high as six feet, six inches and it was difficult even at this for the horses to get over. The first prize went to Marathon, exhibited by H. H. Short, Ottawa.

## SATURDAY'S BASEBALL

Providence 11, Montreal 20.

## BASEBALL PARADE WILL START AT 3 O'CLOCK: GAME CALLED AT 4

### All in Readiness for Monster Demonstration—Record Crowd in History of Province Will Be in Attendance—Four Hundred Autos to Line-up—Saskatoon vs. Eskimos at 4 O'Clock—Parade Leaves Empire Hotel, Second Street, at 3 o'clock Sharp.

Everything is looking rosy for the big parade and opening this afternoon at Diamond park. After a wet and dismal Sunday, the weather has cleared up to a nicety and everything will be run off as first planned. The big auto parade will leave the Empire auditorium at 3 o'clock sharp. Auto owners are requested to be there soon enough before that hour to make ready the parade. Ladies are especially invited to take part in the parade and accompany their husbands, fathers, brothers, sweethearts or someone else's. At any rate be in the parade.

The weather is warming up nicely and by the time the game arrives, the diamond and everything else will be in fine condition. In fact, the diamond will be in all the better shape for having had the rain. Four hundred seats have been reserved in the grand stand for those in the parade. These will be on sale at the Empire auditorium. There will be two bands in the parade, the Citizen's band and the news boys' bugle and drum corps. L. L. Pearce, chairman of the parade committee states that there will be between 300 and 400 autos in the line, and asks all auto owners to get the booster spirit for the ball team and join the parade.

The game will be called at 4 o'clock and it is expected that James Flemming, president of the league will be present. In the first auto in the parade will be Mayor McNamara, W. J. Magrath, president of the Edmonton Industrial association, Lou Nordyke, manager of the Eskimos, Bill Hurley, manager of the Quakers, and James Flemming, president of the Western Canada league.

There are many special prizes hung up by local merchants for special feats by players of the ball teams. A purse of $25 is offered for the first home run made today. The first ball will be pitched by Mayor McNamara and W. J. Magrath will endeavor to hit it. Edmonton is baseball crazy and is going to turn out this afternoon and help swell the record crowd. The line of parade will be: Empire hotel to Victoria avenue, to Ninth street, to Jasper avenue, to Namayo avenue, to Elizabeth, to First street, to Jasper, to McDougall avenue and down the hill to Diamond park.

## *Dominion Lacrosse Association Big Four Schedule for Year 1914*

Toronto, May 4.—The adjourned annual meeting of the Dominion Lacrosse association was held Saturday afternoon at the Prince George Hotel and the Big Four is still the Big Four, but without Geo. Kennedy's Irish-Canadiens. Kennedy withdrew his team for this year and the vacancy was filled by admitting Quebec.

The schedule was adopted as follows:

May 23—Tecumsehs at Nationals.
May 25—Victoria Day—Quebec at Toronto.
May 30—Nationals at Tecumsehs, Torontos at Quebec.
June 6—Nationals at Toronto; Tecumsehs at Quebec.

### No Limit in Major Leagues.

According to a ruling which has just leaked out, major league clubs may carry as many players as they wish during the season. Heretofore it has been necessary for the managers to cut their squads down to twenty-five players by May 15. The Federal league activities have made it necessary to do something to keep the players out of the outlaws' hands. This ruling will hit the minor league clubs hard, as several of them at the present time are waiting for "hardly-good-enoughs" from the majors to strengthen their line-up. This may affect the Toronto club, who expect to get several pitchers from the Giants.

### Regina vs. Medicine Hat.

Medicine Hat, May 4.—The batting order for the opening Western Canada league game here today is:

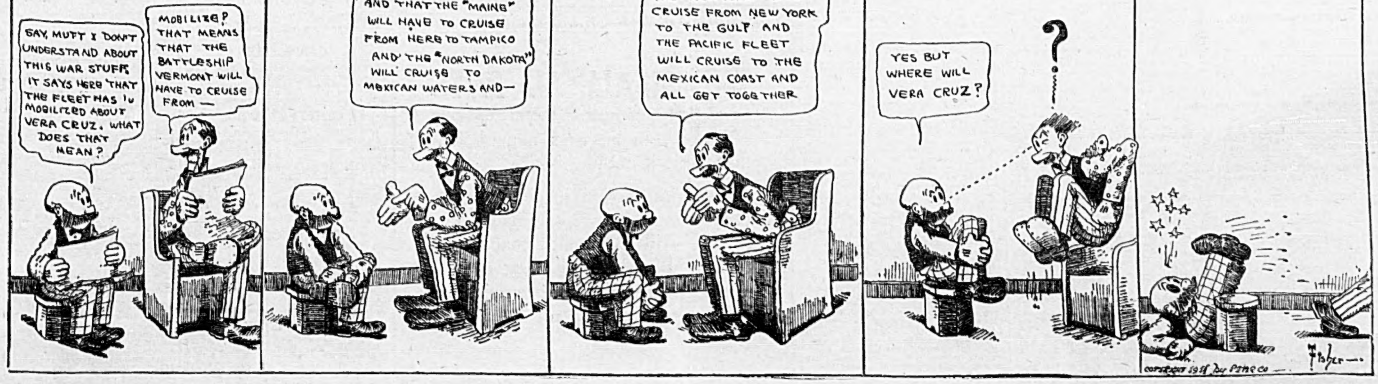

Regina—Zoeller, lf; Henry, 3b; J. Smith, cf; Williams, rf; C. Smith, ss; Hemot, 1b; Stis, 2b; Sinnott or Roth, c; Batteroff or Weir, p.

Medicine Hat—Daniels, cf; Fielgar, rf; Whaling, 1b; Morse, 2b; Hillman, 3b; Carnes, ss; Hayes, lf; Bliss, c; Lind, p.

# SNOW IN CENTRAL ALBERTA WILL DO GOOD TO CROPS

### Moisture Was Needed to Give Seed Start, Says Hon. Duncan Marshall.

### FINE CONDITIONS ON DEMONSTRATION FARMS

### Grade Holstein Cow Produces Seventeen Hundred Pounds in Year.

Hon. Duncan Marshall returned this morning from the South. Mr. Marshall spent the week end on his own farm at Olds. He states that there was a heavy fall of snow at Olds during the week end, but the weather was not very cold and the snow was melting quickly. The moisture was needed in the district in order to start the Timothy crop, which is a large one in the Olds district.

Steers fed on the Vermilion demonstration farm during the winter are being shipped today. The steers on the Stony Plain farm are being held till Monday. All the steers fed on the demonstration farms at Vermilion, Sedgewick, Olds, Claresholm and Stony Plain have been purchased by P. Burns and company of Calgary, H. A. Craig, superintendent of demonstration farms, is attending to the shipment of the animals from Vermilion today.

**Grain Crop All In.**

The seed grain crops on the various demonstration farms are now all in the ground and the spring wheat is up at Claresholm. Some sowing of crops required for green feed is still to be done, in addition to the barley seeding which comes on later.

Sydney Carlyle, assistant superintendent of demonstration farms, has just returned from Athabasca where the newly acquired demonstration farm is being put into shape. Seeding is proceeding and Mr. Carlyle reports that the ground is working up in fine shape.

**Milch Cows Records.**

One of the cows on the Olds demonstration farm has yielded 16,000 pounds of milk in 11 months and 10 days. Her record is being carefully kept and it is expected that she will exceed the 17,000 pounds mark for the year. This cow is a grade Holstein.

The milking tests which have been organized by the department have brought many entries. No less than 103 farmers have entered cows in the grade competitions, some of them placing in as many as five animals. Fourteen owners of pure bred herds have entered the contest for pure bred herds. Entries finally close May 1st. The department is offering a considerable amount in prizes, in order to encourage the keeping of records and the improvements of the milking stock of the province.

### CAR OFF TRACK PUTS HIGH LEVEL BRIDGE OUT OF COMMISSION

Owing to the derailment of a freight car in the cutting on the C.P.R. near Ninth street this morning the railway line over the high level bridge was temporarily out of commission. Passengers, arriving by the early morning trains were obliged to alight at Strathcona and make the journey over the high level bridge in the street car. Those who went to catch the early morning train for the south, also found it necessary to go over to the south side in order to get their train. The line was cleared about 8.30.

### EIGHTY APPLICATIONS FOR RENEWALS BEFORE LICENSE COMMISSIONERS

Some 80 applications for renewal of licenses in Edmonton and district will be made at the meeting of the board of license commissioners which will hold sessions in the Juvenile court tomorrow. The applications for renewals of city hotels will be heard in the morning and those from the surrounding district in the afternoon

**Three Are Electrocuted.**

Winnipeg, May 4.—James A. Bell, a 15-year-old boy was electrocuted Saturday afternoon by touching a live wire in the lane behind his house.

Hamilton, May 4.—Edward Stewart was electrocuted last Saturday night in his home. He went into the cellar to get some coal oil and he carried a small electric lamp, which was attached to a long wire. As he was moving about the cellar he fell.

Kingsville, Ont., May 4.—Carl Marriott, a lineman employed by the Essex County Light and Power Co. was electrocuted near Leamington when a pole which he and another man were erecting sagged over against a live electric light wire and snapped, one end falling on Marriott.

**Lecture, Christianity vs. Socialism**

The Knights of Columbus "Edmonton Council" have secured the services of Mr. David Goldstein, secretary of the Boston school of political economy and author of socialism, the nation of fatherless children, who will lecture at the Empire auditorium on Monday the 11th inst., taking for his subject, christianity vs. socialism. As this is a subject which deeply concerns all phases of religious thought, it is expected that the seating capacity of the Empire auditorium will be taxed to its utmost.

**Woman's Jump Fatal.**

Petrolea, May 4.—Mrs. Geo. Kells received injuries from which she died before the ambulance which was summoned to take her to the hospital had reached its destination when she jumped in fright from a rapidly moving buggy in which she and her husband were driving yesterday.

Organized labor in Minnesota is conducting an agitation for an eight-hour law.

### CHIEF STATES HE IS TAKING PRECAUTIONS STOP SAFE CRACKING

So far nothing new has been discovered by the police in connection with the safe-blowing of Saturday morning. Every possible precaution has been taken by the police department of late that such an affair would not occur. It is not generally known that some time ago one of the constables, while on his beat, discovered some nitro-glycerine in a bottle hidden under a doorstep on Kinistino avenue. Detectives were at once detailed to watch the place night and day in the hope that the person or persons who placed the explosive there would come for it. However, they must have known that the police were after them as no one ever turned up to look for the bottle. Expecting that something like this would happen Chief Lancey gave instructions that the constables on duty should keep a strict watch; in fact, he ordered that if a fire occurred, especially during the night, the constable on that beat should be the first one to turn in the alarm, thereby showing that he was keeping a strict watch.

### PREMIER SAYS NOT IN PUBLIC INTEREST ANSWER QUESTIONS

London, May 4.—Even if inquisitive parliamentarians had remained undaunted by Premier Asquith's refusal to answer further question upon Ulster, their eagerness to hear today's budget proposals would doubtless cause them to restrain their curiosity. There was, however, some attempt to draw the premier when the house of commons sat today.

What precedent existed he was asked, for refusing to answer questions.

"There is no precedent," he admitted, "but circumstances are extraordinary and unique."

"Then is it not a precedent amounting to a refusal by the government to answer inconvenient questions?" demanded Bonar Law.

"Not at all," he replied, "I put it on special grounds. I shall be glad to answer the questions if any new facts arise."

Answering James Hope, the premier said he did not think it would serve the public interest to make any statement at the present regarding settlement prospects.

**Kills Himself on Boat.**

Port Arthur, May 4.—Henry S. Chappell, 52 years old, of Carnia, Inspector on Northern Navigation steamer Huronic, cut the arteries of his left arm in his room on the boat early yesterday. The steamer was 18 miles out on her way to the Soo, when he was found dying, and it immediately turned about, bringing him back to Port Arthur. He was dead on arrival here, so that the body was prepared by an undertaker and taken east again on the same steamer. No reason is known why Campbell should commit suicide, but members of the crew report that he told his wife when the boat was leaving Sarnia that he would not be back alive.

**Krafchenko's Wife Calls.**

Winnipeg, April 4.—Mrs. John Krafchenko, wife of John Krafchenko, recently found guilty of murder and sentenced to hang, arrived in the city Saturday night and will remain either until the sentence is carried out or until the death sentence should be commuted. Mrs. Krafchenko was much disappointed at not being able to see her husband immediately on her arrival. She came from Graham, Ont., where they lived prior to the Plum Coulee bank robbery and murder.

**Shipping Conference Adjourns.**

Cologne, Germany, May 4.—The trans-Atlantic shipping pool conference was adjourned Saturday owing to the inability of the delegates of various continental lines to reach an agreement with the Canadian Pacific line. The next meeting will be held in London on August 5.

**Floating Body Identified.**

Chatham, Ont., May 4.—A body found floating in the Thames river about five miles above Chatham yesterday was identified as that of Thomas Gordon, a zone township farmer who has been missing since April 6.

**Explosion Causes Injury.**

Ottawa, May 4.—A terrific explosion of a pail filled with chemicals occurred yesterday in front of the residence of J. D. Mouge, and two men, four boys and an elderly lady were trapped in a mass of flames and smoke. The pail had been carried from a private laboratory a few minutes before.

**Fifty Lives Lost in Fire.**

Valparaiso, Chile, May 4.—More than 50 lives were lost early today in a fire in the commercial section of this city. Several buildings were destroyed. Their flimsy construction rendered the efforts of the fire fighters virtually useless.

**Echo of Hagel-Westlake Case.**

Winnipeg, May 4.—From the effects of the terrible strain of the past few months Mrs. John H. Buxton, common law wife of the star witness in the Hagel-Westlake case, died at the Victoria hospital here on Saturday night.

**Known to Canadians.**

London, May 4.—Peter David Thomas, a lawyer of London and Leeds, adopted as the Unionist candidate for the Gower division of Glamorgan, is well known to many Canadians.

**New Council Instituted.**

Medicine Hat, May 4.—The Medicine Hat council of the Knights of Columbus, the fourth in Alberta, was instituted here yesterday with 600 visitors present from practically every town in Alberta, Saskatchewan and British Columbia, and a dozen or so from Spokane and Seattle.

**Fail for $3,000,000.**

Philadelphia, Pa., May 4.—The failure of Gram-Mitchell and company, bankers and grocers, was announced on the Philadelphia stock exchange today with liabilities exceeding $3,000,000.

**New Faces at Becker Trial.**

New York, May 4.—For the second trial of Charles Becker, former police lieutenant, on a charge of having instigated the murder of Herman Rosenthal, district attorney Charles H. Whitman will call seventy witnesses. The trial will begin Wednesday. Many new faces, it is said, will be seen in the witness chair and several witnesses prominent in the first trial will not appear.

By a unanimous vote the Boston Cigarmakers' union has levied an assessment of 15 on each member to advertise the Boston-made cigars this year.

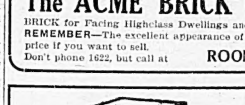

A report issued by the Missouri Bureau of Labor Statistics shows that St. Louis had 44,947 members of trades unions in 1913, of which total 2,940 were women. Recently this number has been increased by the organization of 500 telephone operators

Davenport is preparing for the entertainment of the twenty-second annual convention of the Iowa State Federation of Labor The convention will meet on June 9th, and it is expected to be the largest in point of attendance in the history of the organization.

West Council Bluffs, Ia., is completing an extensive new sewer system.

**There are no expensive preparations; no time lost; use only your leisure hours; sit in your easy chair and read**

## Panama and the Canal in Picture and Prose

This book first takes you in through the front door of Panama—through the islands along the way, describing the natives in picture and prose; thence you are taken to the isthmus and are shown the wonders of that unknown country—the people, their strange costumes, their religions and politics, their peculiar characteristics; how they live—how certain natives eat lizards and hugely enjoy them—how they fish and hunt; their sports and pastimes; marketing bananas, shooting alligators, burning charcoal; ALL there is to know, all about these queer people, and more than has ever been told of the great waterways—from the whys and wherefores of its inception to the ins and outs of its construction — and on through to its completion—in all a beautiful human interest story that will charm the reader to the very last page.

An illustration cannot portray the beauties of this big $4 book, bound in tropical red vellum cloth. It measures 9 x 12 inches in size.
The Picture of the Hand Shows the Comparative Size of the Book.

## IT IS A RARE TREAT FOR EVERYBODY

# The CAPITAL

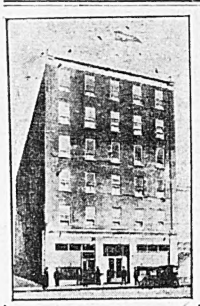

presents this book to its readers on the popular plan explained in the Panama Certificate printed daily in these columns.

**Cut Out the Panama Certificate** and present at this office with the expense amount of $1.20 for the $4 volume, or 50 cents for the $2 volume (which covers the items of the cost of packing, express from the factory, checking, clerk hire, and other necessary EXPENSE items), and receive your choice of these books:

**The Large Volume**
is printed from new type, large and clear, splendidly bound, with inlaid panel showing the famous Culebra Cut in natural colors, and filled with magnificent illustrations, many of which are from water color studies in artistic colorings.

**The Small Volume**
contains practically the same reading matter; is bound in blue vellum cloth, but contains only 100 photographic reproductions, and the color plates are omitted. Willis J. Aboot, America's most versatile writer, is the author of both books.

# FROM SUNNY ALBERTA TO DIXIE LAND

## Edmonton Shriners Will Have Special Car on Trip to Atlanta.

## LOCAL NOBLES ARE GREAT BOOSTERS FOR PROVINCE

## Train Leaves on Wednesday Morning Over the C.P.R. South.

Members of the Ancient Arabic Order of Nobles of the Mystic Shrine will stable their camels in Atlanta, Georgia, during the next session of the Imperial Council, which is to be held 'n Georgia's superb capital on May 10-13, 1914. Atlanta's hospitable Nobles have promised their visitors a royal time, and that promise will be fulfilled. Elaborate preparations are being made for the entertainment of the visiting nobles and nothing will be left undone that will contribute to the time of their lives.

On May 6th, a special train will leave Edmonton to convey the Shriners on their annual pilgrimage across the sands of the desert to Mecca, which is this year represented by Atlanta, Georgia. No expense is spared, and they will uphold their great reputation for doing things in the right way, and it will be a trip to be long remembered by those fortunate enough to go along. The Edmonton contingent will leave over the C. P. R. at 8 o'clock on the morning of the 6th, and get the special leaving Calgary at 11 o'clock that night. This special will then go to Winnipeg, be attached to the special there, and form part of it.

The Shriners are certainly boosters for Edmonton and Alberta. They have adopted novel schemes for making the country known to their friends in the sunny south, and with that object in view, the Edmonton Shriners will give away along the route, 3,000 small Canadian flags with badge attached bearing the name, "Edmonton Shrine club." They also having made 7,500 new Canadian coppers, ringed with a 3-8 inch band of aluminum. These will be stamped with a suitable Edmonton boost. In addition to this, 2,000 sacks, 2x4 inches, filled with prize oats, and suitably printed.

**An Edmonton Car**

The boys of the Edmonton Shrine club have prepared some unique decorations for the special car, both inside and outside. A banner along the sides of the car will announce that it carries members of the Edmonton Shrine club and friends, and the interior will be decorated with streamers and photos which in turn will be used to decorate their headquarters at Atlanta. The Shriners' special will be the finest train that ever pulled out of Calgary and will be a credit to the country. The train will be complete with pullmans and dining cars and a special parlor and tango car. A piano will be on board and several capable performers with the Shrine, both vocal and instrumental, good music for the tourists is assured. The Kilties' band of Medicine Hat, comprising 19 pieces, with little Rachel Hogg, the charming Highland dancer, will accompany the Shriners south. The patrol boys have left nothing undone to make the trip a success, and their sole duty and occupation en route is to see that everybody has a good time. That they will have it is assured.

**Itinerary**

Leave Edmonton Wednesday, May 6, 8 a.m., C. P. R. arriving Calgary, 3 p.m.

Leaves Calgary Wednesday, May 6, 11 p.m., C. P. R. Soo Line, via Moose Jaw, Portal to St. Paul, at which place we will spend the afternoon and evening as guests of Osman temple.

From St. Paul, via Soo line, to Chicago, where will spend afternoon and evening visiting Medina temple, the big stores and theaters.

From Chicago, via the Big Four, passing through the great corn belt to Indianapolis, the home of one of the largest Scottish Rite temples in America; half day will be spent in sight-seeing.

From Indianapolis, via the Big Four, passing through the oil fields of southern Ohio to Cincinnati, the metropolis of the middle southwest; five hours will be spent here.

From Cincinnati, via Queen and Crescent route, through the famous blue grass valleys of Kentucky and Tennessee to Chattanooga, where we will have nine hours to visit the famous historical points of the civil war such as Missionary Ridge, Lookout Mountain, etc.

From Chattanooga, via Queen and Crescent route, to Atlanta, arriving at 9 p.m. Monday, 11th, where the big shows holds forth.

**Detailed Itinerary**

Leave Calgary 11 p.m., Wednesday, May 6th.

Arrive St. Paul 11:30 p.m., Friday, May 8th.

Arrive Chicago, 12:30 p.m., Sunday, May 10th.

Arrive Indianapolis, 12:10 (noon), on Sunday, May 10th.

Arrive Cincinnati, 3:30 p.m., Sunday, May 10th.

Leave Cincinnati, 9:00 p.m., Sunday, May 10th.

Arrive Chattanooga, 7 a.m. Monday, May 11th.

Leave Chattanooga, 4 p.m., Monday, May 11th.

Arrive Atlanta, 9 p.m., Monday, May 11th.

"Away down south in de land ob cotton," will soon be a tune familiar to all Shriners' ears—for they are Dixie-bound.

**Allan Liner Arrives.**

The Allan line steamship Sicilian was reported 180 miles east of Cape Race at five p.m. Friday. It is due at Quebec tomorrow morning and at Montreal Wednesday morning.

## STREET RAILWAY NEWS

May 4, 1914.

May 2—Maximum number of cars in service, 56.

Passengers carried May 1, 41,685.

**Interruptions.**

Route 4—At 12.15 p.m. car No. 42, High Level extra, lost one round trip, being derailed at Syndicate and Sutherland. All southbound Syndicate cars had to be run via Namayo instead of Syndicate. Northbound cars running via Syndicate, Sutherland and Namayo.

May 3—Maximum number of cars in service, 39.

**Interruptions.**

Route 4—At 4.45 p.m. car No. 68 lost 20 minutes, due to broken trolley pole. Turned at First and Jasper at 5.20, on time.

Notice—Passengers please note that transfers will be issued only after fares are paid. Transfers will be accepted at transfer points only.

## UNIVERSITY NOTES

**Important Appointments**

Four important appointments were made at the meeting of the Board of Governors of the university of Alberta.

Professor W. A. R. Kerr was appointed Dean of the faculty of arts. His office carries with it responsibility for the administrative side of the work of the faculty of arts.

Professor W. H. Alexander was appointed Controller of Examinations. He will have charge of the university examination system, which owing to the examinations conducted for the various affiliated societies in addition to the regular university examinations, has now grown to be an extensive organization in itself.

Professor J. W. McEachran was appointed Provost of the university. He will exercise general supervision over the conduct and welfare of the student body and will give special attention to the university residence system.

Professor W. H. Edwards was appointed director of the industrial laboratories. He will have supervision and direction of the work done in the industrial laboratories recently established in the university.

**Publish University Paper**

On the representation of the faculty, the board of governors of the university of Alberta have authorized the publication of a university journal during the coming session, to be known as the "University Review." This publication, which will probably be issued monthly during the college term, will deal with problems related particularly to the province of Alberta, municipal, rural, social, economic and political.

**New Departments Created**

At the meeting of the board of governors of the university of Alberta provision was made for the creation of new departments in electrical engineering, pharmacy, accounting, drawing and descriptive geometry. The creation of these follows the natural development of the different sides of University work.

**Twelve Nations at Varsity**

The list of birthplaces given by the students of the university of Alberta indicates the diversity of interests centered there. Twelve countries figure in this list, distributed as follows: 271 Canadians, 15 Scotch, 50 Americans, 5 Swedes, 66 English, 5 Australians, 4 Austrians, 1 Russian, 10 Irish, 5 French, 3 Norwegians, 1 Chinese.

**School of Surveying**

A two week's school of surveying is being conducted by the department of applied science at the university of Alberta following the final examinations in that department. Fifty-two students are availing themselves of this very practical instruction. First year students are given lessons in chaining, rodding, use of the compass and minor surveying instruments, together with some elementary work in levelling. Second year students get a thorough drill in the uses and adjustments of transit and compass, followed by railroad survey, in conjunction with which topographical and contour work is carried on. Senior men do more advanced surveying such as making accurate baseline measurements, triangulation and astronomical observations.

**Affiliate With Varsity**

The association of chartered accountants and the pharmaceutical society were accepted at the meeting of the senate of the university of Alberta on Tuesday, April 14th, as affiliated societies of the university. In future the university will conduct the examinations of these societies.

**Offers a Medal**

Mrs. W. D. Ferrie, of Edmonton, has offered a medal to be presented to the best student in the department of modern languages. The offer has been gratefully accepted.

## UNION LABOR ON PROVINCIAL GAOL AT FORT SASKATCHEWAN

In connection with the construction of the new jail at Fort Saskatchewan General Secretary Farmilo, of the Trades council, has interviewed the deputy minister of public works and asked that as many union men as possible be employed. Mr. Farmilo was told that all the skilled labor would be done by trades unionists, but there was some of the laboring work that the convicts would do, but this would not interfere, or conflict with the rules of any union.

**Presbyterian Concert**

A musical entertainment will be given this evening at 8 o'clock in the Westmount Presbyterian church, corner Albany avenue and 29th street. The ladies of Westminster church will present "The Mohawk Crossing Ladies' Aid." There will be a number of vocal and instrumental selections.

## LANCEY PLANNING TO IMPROVE EFFICIENCY OF THE POLICE FORCE

The police department has practically completed arrangements for the taking over of their gymnasium hall above the Graham-Evans garage, 10122 98th street. This was the statement made by Commissioner Booth this morning. The rent of this hall will cost the city $75 per month. A hall for this purpose has been a long felt want and ever since Mr. Lancey took up his duties as chief he has kept his eyes open for just such a place and considers it very fortunate that he has been able to get this place so handy to the station.

The gym will be for the purpose of keeping the men of the force in good condition and among other things instruction will be given in boxing and wrestling. Chief Lancey also intends that the constables shall be drilled and will have to pass examinations as to the ordinary forms of arrest, the criminal code and the location of the principal street of the city as well as the most important business houses so that the force can be of the greatest possible assistance to the citizens of Edmonton, as he looks upon the force as much for protection and assistance to the citizens as he does for the detection and punishment of criminals.

Instruction in the forgoing subjects will be tabulated by the magistrate's clerk. Instruction as to the criminal code, autority of making arrests, etc., will be given by the prosecutor. Deportment, appearance and general service will be given by the chief of police and other officers in charge, arrangements are also being made to have some competent man instruct members of the force in general gymnasium work a few hours each week.

## GRADUATING CLASS 1914 ALBERTA COLLEGE HEAR REV. A. C. FARRELL, CAL.

The 1914 graduating class from Alberta College attended McDougall Methodist church on Sunday morning, the baccalaureate sermon being preached by Rev. A. C. Farrell, of Wesley Methodist church, Calgary. The faculty and students from both the north and south side colleges were also present. The annual fellowship meeting was held in the college in the afternoon. On Saturday evening the graduates were given a banquet at the Alberta College.

The twelve students who form the 1914 graduating class are:—

Walter Davidson, B.A.; Charles E. Rogers, W.H. Day, John G. Rogers, Fred T. Cook, B. Gordon Burgoyne, Duncan P. Cameron, Percy Halstead, Fred Forster, Edward P. Kemp, Radcliffe Clegg and John McPhail Wagstaff, B.A.

Guests of honor at the banquet included;

Rev. S. S. Peat, chairman and toastmaster; Rev. Prof. Bland, vice chairman; Rev. Principal Riddell; Rev. A. C. Farrell, of Calgary; Rev. F. S. McCall, of Alberta College, north, and Rev. J. M. Miller, representing the Robertson Presbyterian Theological College. The following members of the executive were also in attendance: Hon. H. C. Taylor, W. T. Henry, A. T. Cushing, P. E. Butchart, Edgar Richardson, W. W. Chown and James Ramsey.

**A. B. Halstead Located Here.**

Arthur B. Halstead has recently located in Edmonton as inspector of Alberta Agencies for the Great West Life Assurance company. He was formerly with the Merchants Bank of Canada for some fifteen years in Manitoba, Alberta and Saskatchewan.

Mr. and Mrs. Halstead have taken a suite in the Rene Lemarchand Apartments for a few months.

**TOO LATE FOR CLASSIFICATION.**
